This Combined Evidence of Coverage and Disclosure Form (Evidence of Coverage) is a summary of the important terms of your health plan. ADMINISTRATIVE AND BENEFIT CHANGES

Effective January 1, 2013, the following changes have been made to your plan.

Administrative Changes

- **Maximum Allowed Amount.** Maximum Allowed Amount will be a new term used for the total reimbursement payable under the Plan for covered services received from Participating and Non-Participating Providers. This term replaces "covered expense" and "negotiated rate". The maximum allowed amount for Participating Providers will be the rate the provider has agreed with Anthem Blue Cross Life and Health to accept as reimbursement in for the covered services. The maximum allowed amount for Non-Participating Providers will be based on an applicable rate or fee schedule, an amount negotiated by Anthem for a third party vender which has been agreed to by the Non-Par Provider, an amount derived from the total charges billed, an amount based on information provided by a third party vendor or an amount based on rates or information from the Centers for Medicare and Medicaid Services (CMS). For an explanation of Maximum Allowed Amount, see the YOUR MEDICAL BENEFITS: MAXIMUM ALLOWED AMOUNT section starting on page 15.

- **Utilization Review Program.** The section is cleaned up for redundancy. Also, text is added stating that: (a) medical management processes may be waived on occasion for certain providers, services or claims; (b) decisions on urgent cases will be made within 72 hours or any shorter period of time required by federal law; and (c) care must be provided in the lower cost setting when the setting or place of service is part of the review and that if lower cost alternative treatments have not been tried, higher cost treatments may not be approved. See the UTILIZATION REVIEW PROGRAMS section starting on page 46.

- **BlueCard Worldwide.** A provision is added describing how Members can access covered services through network hospitals in foreign countries, what the Member's expected cost sharing responsibilities will be, and how claims are filed for these services. See the TYPES OF PROVIDERS section starting on page 4.

- **Telehealth.** A provision is added to show that telehealth benefits are covered subject to the terms of the plan. See the SUMMARY OF BENEFITS section starting on page 7.

- **Advanced Imaging Procedures.** The complex radiology services (CT or CAT scan, MRI or Nuclear Cardiac Scan, Pet scan, etc.) are extracted from the Diagnostic Radiology and Lab benefit and noted as its own benefit to clarify that these complex radiology services may require pre-service review. See the YOUR MEDICAL BENEFITS: MEDICAL CARE THAT IS COVERED section starting on page 22.

- **Preventive Care.** The Routine Physical Exam, Well Child Care, Adult Preventive Services and Screening for Blood Lead Levels benefits have been combined into one Preventive Care benefit. In addition, due to the Patient Protection and Affordable Care Act (HR 3590) and the Health Care and Education Affordability Reconciliation Act (HR 4872), new and newly expanded benefits for women's preventive care provisions have been added. See the YOUR MEDICAL BENEFITS: MEDICAL CARE THAT IS COVERED section starting on page 22.

- **Mental or Nervous Disorders or Substance Abuse.** Pre-service review will no longer be required after the first 12 outpatient visits to a physician. See the YOUR MEDICAL BENEFITS: MEDICAL CARE THAT IS COVERED section starting on page 22.

- **Pregnancy, Maternity Care and Family Planning.** Text is added to clearly describe the coverage and to reference the coverage of newborn screenings. See the YOUR MEDICAL BENEFITS: MEDICAL CARE THAT IS COVERED section starting on page 22.

ADMINISTRATIVE AND BENEFIT CHANGES

- **Urgent Care.** Professional and facility urgent care language has been added for clarification (physician with office visit cost share; facility with outpatient cost shares (deductible/coinsurance). See the YOUR MEDICAL BENEFITS: MEDICAL CARE THAT IS COVERED section starting on page 22.
- **Varicose Vein Treatment exclusion.** Language has been added the clarify that certain varicose vein treatments are not covered. See the YOUR MEDICAL BENEFITS: MEDICAL CARE THAT IS NOT COVERED section starting on page 41.
- **Dental Care exclusion.** The dental care exclusion has been revised to further clarify what is not covered. See the YOUR MEDICAL BENEFITS: MEDICAL CARE THAT IS NOT COVERED section starting on page 41.
- **Hospice.** Hospice care is now covered as an in network and out of network provider. See the GENERAL DEFINITIONS section starting on page 103.
- **Ambulance.** Ambulance providers are now covered as in network and out of network providers. See the GENERAL DEFINITIONS section starting on page 103.
- **CalCOBRA Continuation of Coverage.** Payment of provision has been revised to state that cancellation for non-payment of premium may occur only after 30 days, rather than 15 days, advanced written notice (or any longer period required by federal law). Also, premiums can change only upon at least 60 day advance written notice, rather than 30 day notice. See CONTINUATION OF GROUP COVERAGE: CALCOBRA CONTINUATION OF COVERAGE section starting on page 79.
- **Post-Cobra Continuation For Qualifying Member.** This provision is deleted and is obsolete.
- **Unfair Termination of Coverage.** The provision has be revised to inform the Member that they may request a review by the CDI if he or she believes his or her coverage has been or will be improperly terminated and the circumstances under which coverage is maintained pending outcome of the review. See the TERMINATION AND RELATED PROVISIONS section starting on page 73.
- **Right of Recovery.** Right of Recovery language has been expanded to more thoroughly describe Anthem Blue Cross Life and Health's recovery policies and practices, reference applicable legal timeframes within which recoveries may be pursued, and to disclose the practice of contracting with other entities to pursue recoveries. See the GENERAL PROVISIONS section starting on page 88.
- **Medically Necessary.** The definition of Medically Necessary is revised and text is added to state that care must be cost-effective compared to alternative interventions, including no interventions. See the GENERAL DEFINITIONS section starting on page 103.
- **Member Rights and Responsibilities.** A provision is added to explain the Member's rights and responsibilities as an Anthem Blue Cross Life and Health Member. See the FOR YOUR INFORMATION section starting on page 112.

  - Due to the Patient Protection and Affordable Care Act (HR 3590) and the Health Care and Education Affordability Reconciliation Act (HR 4872), prescription oral contraceptives and contraceptive diaphragms will be covered as preventive care services. Deductible, if applicable, will be waived for generic contraceptives or brand name contraceptives that have no generic equivalent and no copayment will be required when obtained from a participating pharmacy.
  - The Mail Service Program has been renamed to Home Delivery Program.
  - Specialty Drug Program has been revised to clarify the current benefit administration for specialty drugs. Only specified specialty drugs must be obtained through the Specialty Drug Program. If the specialty drug does not need to be obtained from the Specialty Drug Program, the applicable retail or home delivery copayment will apply.

Coverage is limited to professional services and treatment programs that develop or restore, to the maximum extent applicable, the functioning of an individual with pervasive developmental disorder or autism, and must meet specified criteria including the treatment plan and the provider of service. See BENEFITS FOR PERVASIVE DEVELOPMENTAL DISORDER OR AUTISM section starting on page 38.

TYPES OF PROVIDERS

PLEASE READ THE FOLLOWING INFORMATION SO YOU WILL KNOW FROM WHOM OR WHAT GROUP OF PROVIDERS HEALTH CARE MAY BE OBTAINED. IF YOU HAVE SPECIAL HEALTH CARE NEEDS, YOU SHOULD CAREFULLY READ THOSE SECTIONS THAT APPLY TO THOSE NEEDS. THE MEANINGS OF WORDS AND PHRASES IN CAPITAL LETTERS ARE DESCRIBED IN THE SECTION OF THIS BOOKLET ENTITLED DEFINITIONS.

Participating Providers. There are two kinds of Participating Providers a Member can select in this plan:

- **PPO Providers** are providers who participate in a Blue Cross and/or Blue Shield Plan. PPO Providers have agreed to a rate they will accept as reimbursement for covered services that is generally lower than the rate charged by Traditional Providers. Participating Providers have agreed to a rate they will accept as reimbursement for covered services. The amount of benefits payable under this plan will be different for Non-Participating Providers than for Participating Providers.
- **Traditional Providers** are providers who might not participate in a Blue Cross and/or Blue Shield Plan, but have agreed to a rate they will accept as reimbursement for covered services for PPO Members.

Depending on the Participating Provider a Member selects, the level of benefits payable under this plan is determined as follows:

- If your identification card shows a PPO suitcase logo and:
  - You select a PPO Provider, you will get the higher level of benefits of this plan.
  - You select a Traditional Provider because there are no PPO Providers in your area, you will get the higher level of benefits of this plan.
- If your ID card does NOT have a PPO suitcase logo, you must select a Traditional Provider to get the higher level of benefits of this plan.

A directory of Participating Providers is available. You can get a directory from Anthem Blue Cross Life and Health or PORAC.

Certain categories of providers defined in this Evidence of Coverage as Participating Providers may not be available in the Blue Cross and/or Blue Shield Plan in the service area where you receive services. See Maximum Allowed Amount in the YOUR MEDICAL BENEFITS section for additional information on how health care services you obtain from such providers are covered.

Centers of Medical Excellence. Anthem Blue Cross Life and Health is providing access to Centers of Medical Excellence (CME) network facilities to provide services for the following specified transplants: heart, liver, lung, combination heart-lung, kidney, pancreas, simultaneous pancreas-kidney, or bone marrow/stem cell and similar procedures. The CME network is comprised of the Anthem Centers of Medical Excellence and the Blue Distinction Centers for Transplant. The Centers of Medical Excellence (CME) meets specific participation criteria and offer comprehensive services through coordinated, streamlined referral management. **The specified transplants are covered only at a CME**. CME have agreed to a rate they will accept as payment in full for covered services. A participating provider in the Blue Cross and/or Blue Shield Plan is not necessarily a CME facility.

TYPES OF PROVIDERS

Non-Participating Providers. Non-Participating Providers are Hospitals and Physicians which have not agreed to participate in a Blue Cross and/or Blue Shield Plan. They have not agreed to the reimbursement rates and other provisions.

Physicians. "Physician" means more than an M.D. Certain other practitioners are included in this term as it is used throughout the plan. This doesn't mean they can provide every service that a medical doctor could; it just means that we'll cover expense you incur from them when they're practicing within their specialty the same as we would if the care were provided by a medical doctor.

Other Health Care Providers. Other Health Care Providers are neither Physicians nor Hospitals. See the definition of Other Health Care Providers in the DEFINITIONS section for a complete list of those providers. Other Health Care Providers are not participating providers.

Participating and Non-Participating Pharmacies. "Participating Pharmacies" agree to charge only the Prescription Drug Maximum Allowed Amount (defined on page 68) to fill the prescription. You pay only your copayment amount.

"Non-Participating Pharmacies" have not agreed to the Prescription Drug Negotiated Rate. The amount that will be covered as Prescription Drug Maximum Allowed Amount (defined on page 68) is significantly lower than what these providers customarily charge.

Care Outside the United States—BlueCard Worldwide

Prior to travel outside the United States, call the customer service telephone number listed on your ID card to find out if your plan has BlueCard Worldwide benefits. Your coverage outside the United States is limited and Anthem Blue Cross Life and Health recommends:

- Always carry your current ID card.
- In an emergency, seek medical treatment immediately.
- **The BlueCard Worldwide Service Center is available 24 hours a day, seven days a week toll-free at (800) 810-BLUE (2583) or by calling collect at (804) 673-1177.** An assistance coordinator, along with a medical professional, will arrange a Physician appointment or hospitalization, if needed.

<u>Payment Information</u>

- **Participating BlueCard Worldwide hospitals.** In most cases, you should not have to pay upfront for inpatient care at participating BlueCard Worldwide Hospitals except for the out-of-pocket costs you normally pay (non-covered services, deductible, copays, and coinsurance). The Hospital should submit your claim on your behalf.
- **Doctors and/or non-participating hospitals.** You will have to pay upfront for outpatient services, care received from a Physician, and inpatient care from a Hospital that is not a participating BlueCard Worldwide Hospital. Then you can complete a BlueCard Worldwide claim form and send it with the original bill(s) to the BlueCard Worldwide Service Center (the address is on the form).

TYPES OF PROVIDERS

Claim Filing

- **Participating BlueCard Worldwide hospitals will file your claim on your behalf.** You will have to pay the Hospital for the out-of-pocket costs you normally pay.
- **You must file the claim** for outpatient and Physician care, or inpatient Hospital care not provided by a participating BlueCard Worldwide Hospital. You will need to pay the health care provider and subsequently send an international claim form with the original bills to Anthem Blue Cross Life and Health.

Claim Forms

- International claim forms are available from Anthem Blue Cross Life and Health, from the BlueCard Worldwide Service Center, or online at:

  www.bcbs.com/bluecardworldwide.

YOUR MEDICAL BENEFITS

MAXIMUM ALLOWED AMOUNT

GENERAL

This section describes the term Maximum Allowed Amount as used in this Evidence of Coverage and Disclosure Form, and what the term means to you when obtaining covered services under this Plan. The Maximum Allowed Amount is the total reimbursement payable under your plan for covered services you receive from Participating and Non-Participating Providers. It is Anthem Blue Cross Life and Health's payment towards the services billed by your provider combined with any Deductible or Co-Payment owed by you. In some cases, you may be required to pay the entire Maximum Allowed Amount. For instance, if you have not met your Deductible under this Plan, then you could be responsible for paying the entire Maximum Allowed Amount for covered services. In addition, if these services are received from a Non-Participating Provider, you may be billed by the provider for the difference between their charges and the Maximum Allowed Amount. In many situations, this difference could be significant.

Provided below are two examples below, which illustrate how the Maximum Allowed Amount works. These examples are for illustration purposes only.

Example: The plan has a member Co-Payment of 30% for participating provider services after the Deductible has been met.

- The member receives services from a participating surgeon. The charge is $2,000. The Maximum Allowed Amount under the plan for the surgery is $1,000. The member's Co-Payment responsibility when a participating surgeon is used is 30% of $1,000, or $300. This is what the member pays. The plan pays 70% of $1,000, or $700. The participating surgeon accepts the total of $1,000 as reimbursement for the surgery regardless of the charges.

Example: The plan has a member Co-Payment of 50% for non-participating provider services after the Deductible has been met.

- The member receives services from a non-participating surgeon. The charge is $2,000. The Maximum Allowed Amount under the plan for the surgery is $1,000. The member's Co-Payment responsibility when a non-participating surgeon is used is 50% of $1,000, or $500. The plan pays the remaining 50% of $1,000, or $500. In addition, the non-participating surgeon could bill the member the difference between $2,000 and $1,000. So the member's total out-of-pocket charge would be $500 plus an additional $1,000, for a total of $1,500.

When you receive covered services, Anthem Blue Cross Life and Health will, to the extent applicable, apply claim processing rules to the claim submitted. Anthem Blue Cross Life and Health uses these rules to evaluate the claim information and determine the accuracy and appropriateness of the procedure and diagnosis codes included in the submitted claim. Applying these rules may affect the Maximum Allowed Amount if Anthem Blue Cross Life and Health determines that the procedure and/or diagnosis codes used were inconsistent with procedure coding rules and/or reimbursement policies. For example, if your provider submits a claim using several procedure codes when there is a single procedure code that includes all of the procedures that were performed, the Maximum Allowed Amount will be based on the single procedure code.

Provider Network Status

The Maximum Allowed Amount may vary depending upon whether the provider is a Participating Provider, a Non-Participating Provider or Other Health Care Provider.

MAXIMUM ALLOWED AMOUNT

Participating Providers and Centers of Medical Excellence (CME). For covered services performed by a Participating Provider or CME the Maximum Allowed Amount for this plan will be the rate the Participating Provider or CME have agreed with Anthem Blue Cross Life and Health to accept as reimbursement for the covered services. Because Participating Providers or CME have agreed to accept the Maximum Allowed Amount as payment in full for those covered services, they should not send you a bill or collect for amounts above the Maximum Allowed Amount. However, you may receive a bill or be asked to pay all or a portion of the Maximum Allowed Amount to the extent you have not met your Deductible or have a Co-Payment. Please call the customer service telephone number on your ID card for help in finding a Participating Provider or visit www.anthem.com/ca.

If you go to a Hospital which is a Participating Provider, you should not assume all providers in that Hospital are also Participating Providers. To receive the greater benefits afforded when covered services are provided by a Participating Provider, you should request that all your provider services (such as services by an anesthesiologist) be performed by Participating Providers whenever you enter a Hospital.

If you are planning to have outpatient surgery, you should first find out if the facility where the surgery is to be performed is an Ambulatory Surgical Center. An Ambulatory Surgical Center is licensed as a separate facility even though it may be located on the same grounds as a Hospital although this is not always the case). If the center is licensed separately, you should find out if the facility is a Participating Provider before undergoing the surgery.

Note: If you receive covered medical services from a type of provider listed in the DEFINITIONS section under Other Health Care Provider and that provider is of a type represented in the network of the on-site Blue Cross and/or Blue Shield Plan at the time you receive services, such provider will be considered a Participating Provider for the purposes of determining the Maximum Allowed Amount.

If a provider defined in this Evidence of Coverage as a Participating Provider is of a type not represented in the local Blue Cross and/or Blue Shield Plan at the time you receive services, such provider will be considered a Non-Participating Provider for the purposes of determining the Maximum Allowed Amount.

Non-Participating Providers and Other Health Care Providers.*Providers who are not in the Prudent Buyer network are Non-Participating Providers or Other Health Care Providers, subject to Blue Cross Blue Shield Association rules governing claims filed by certain ancillary providers. For covered services you receive from a Non-Participating Provider or Other Health Care Provider, the Maximum Allowed Amount will be based on the applicable Anthem Blue Cross Non-Participating Provider rate or fee schedule for this Plan, an amount negotiated by Anthem Blue Cross Life and Health or a third party vendor which has been agreed to by the Non-Participating Provider, an amount derived from the total charges billed by the Non-Participating Provider, an amount based on information provided by a third party vendor, or an amount based on reimbursement or cost information from the Centers for Medicare and Medicaid Services ("CMS"). When basing the Maximum Allowed Amount upon the level or method of reimbursement used by CMS, Anthem Blue Cross Life and Health will update such information, which is unadjusted for geographic locality, no less than annually.

Unlike Participating Providers, Non-Participating Providers and Other Health Care Providers may send you a bill and collect for the amount of the Non-Participating Provider's or Other Health Care Provider's charge that exceeds Anthem Blue Cross Life and Health's Maximum Allowed Amount under this Plan. You may be responsible for paying the difference between the Maximum Allowed Amount and the amount the Non-Participating Provider or Other Health Care Provider charges. This amount can be significant. Choosing a Participating Provider will likely result in lower out of pocket costs to you. Please call the customer service number on your ID card for help in finding a Participating Provider or visit Anthem Blue Cross Life and Health's website at www.anthem.com/ca. Customer service is also available to assist you in determining this Plan's Maximum Allowed Amount for a particular covered service from a Non-Participating Provider or Other Health Care Provider.

MAXIMUM ALLOWED AMOUNT

***Exceptions:**

- **Cancer Clinical Trials.** The Maximum Allowed Amount for Non-Participating Providers for services and supplies provided in connection with Cancer Clinical Trials will be the lesser of the billed charge or the amount that ordinarily applies when services are provided by a Participating Provider.
- **If Medicare is the primary payer, the Maximum Allowed Amount does not include any charge:**

  1. By a Hospital, in excess of the approved amount as determined by Medicare; or
  2. By a Physician who is a Participating Provider who accepts Medicare assignment, in excess of the approved amount as determined by Medicare; or
  3. By a Physician who is a Non-Participating Provider or Other Health Care Provider who accepts Medicare assignment, in excess of the lesser of the Maximum Allowed Amount stated above, or the approved amount as determined by Medicare; or
  4. By a Physician or Other Health Care Provider who does not accept Medicare assignment, in excess of the lesser of the Maximum Allowed Amount stated above, or the limiting charge as determined by Medicare.

You will always be responsible for expense incurred which is not covered under this plan.

Cost Share

For certain covered services, and depending on your plan design, you may be required to pay all or a part of the Maximum Allowed Amount as your cost share amount (Deductibles or Co-Payments). Your cost share amount and the Out-Of-Pocket Amounts may be different depending on whether you received covered services from a Participating Provider or Non-Participating Provider. Specifically, you may be required to pay higher cost-sharing amounts or may have limits on your benefits when using Non-Participating Providers. Please see the SUMMARY OF BENEFITS section for your cost share responsibilities and limitations, or call the customer service telephone number on your ID card to learn how this Plan's benefits or cost share amount may vary by the type of provider you use.

Anthem Blue Cross Life and Health will not provide any reimbursement for non-covered services. You may be responsible for the total amount billed by your provider for non-covered services, regardless of whether such services are performed by a Participating Provider or Non-Participating Provider. Non-covered services include services specifically excluded from coverage by the terms of your plan and services received after benefits have been exhausted. Benefits may be exhausted by exceeding, for example, Medical Benefit Maximums or day/visit limits.

In some instances you may only be asked to pay the lower Participating Provider cost share percentage when you use a Non-Participating Provider. For example, if you go to a Participating hospital or facility and receive covered services from a Non-Participating Provider such as a radiologist, anesthesiologist or pathologist providing services at the hospital or facility, you will pay the Participating Provider cost share percentage of the Maximum Allowed Amount for those covered services. However, you also may be liable for the difference between the Maximum Allowed Amount and the Non-Participating Provider's charge.

MAXIMUM ALLOWED AMOUNT

Authorized Referrals

In some circumstances Anthem Blue Cross Life and Health may authorize Participating Provider cost share amounts (Deductibles or Co-Payments) to apply to a claim for a covered service you receive from a Non-Participating Provider. In such circumstance, you or your Physician must contact Anthem Blue Cross Life and Health in advance of obtaining the covered service. It is your responsibility to ensure that Anthem Blue Cross Life and Health has been contacted. If Anthem Blue Cross Life and Health authorizes a Participating Provider cost share amount to apply to a covered service received from a Non-Participating Provider, you also may still be liable for the difference between the Maximum Allowed Amount and the Non-Participating Provider's charge. Please call the customer service telephone number on your ID card for Authorized Referral information or to request authorization.

YOUR MEDICAL BENEFITS

DEDUCTIBLES, CO-PAYMENTS, OUT-OF-POCKET EXPENSE AMOUNT AND MEDICAL BENEFIT MAXIMUMS

After we subtract any applicable deductible and your co-payment, we will pay benefits up to the amount of the Maximum Allowed Amount, not to exceed the applicable Medical Benefit Maximum. The Deductible amounts, Co-Payments, Out-of-Pocket Expense Amount and Medical Benefit Maximums are set forth in the SUMMARY OF BENEFITS.

DEDUCTIBLES

Each deductible under this plan is separate and distinct from the other. Only the covered charges that make up the Maximum Allowed Amount will apply toward satisfaction of any deductible except as specifically indicated in this Evidence of Coverage.

Primary Deductible: Each Member must initially meet a deductible amount of $300.00 each calendar Year for applicable services (see pages 8 & 9 for services which are not subject to the deductible). Once that amount has been reached there is no further deductible for that Member that Year for covered services incurred when services are received from the following providers:

1. Participating Providers and CMEs,
2. Other Health Care Providers,
3. Non-Participating Provider Physicians whose specialty is not represented in the Blue Cross and/or Blue Shield Plan, and
4. Non-Participating Provider Physicians/Hospitals for Emergency Care or Accidental Injury.

A family must initially meet a deductible amount of $900.00 each calendar Year. Once that amount has been reached, there is no further deductible required for that family for the remainder of that Year when covered services are received from the providers listed above.

Non-Participating Provider Deductible. Charges for covered services incurred rendered by a Non-Participating Provider Hospital or Non-Participating Provider Physician (except as stated above) are subject to an additional $300.00 deductible for each Member and to an additional $900.00 deductible for each family. **In no event will the deductible exceed $600.00 for each Member or $1,800.00 for each family during a Year.**

Deductible Carryover. Covered charges incurred during October, November or December of any Year and applied toward the deductible for that Year will also apply toward the deductible for the next Year.

YOUR MEDICAL BENEFITS

CO-PAYMENTS

After you have satisfied any applicable deductible, we will subtract your co-payment from the amount of the Maximum Allowed Amount remaining.

If your co-payment is a percentage, we will apply the applicable percentage to the amount of the Maximum Allowed Amount remaining after any deductible has been met. This will determine the dollar amount of your co-payment.

If you receive services from an Other Health Care Provider of a type participating in a Blue Cross and/or Blue Shield Plan, your Co-Payment if you go to a provider participating in the Blue Cross and/or Blue Shield Plan will be the same as for a Participating Provider shown in the section SUMMARY OF BENEFITS CO-PAYMENTS.

OUT-OF-POCKET EXPENSE AMOUNT

Satisfaction of the Out-of-Pocket Expense Amount. If, after you have met your Calendar Year Deductible, you pay co-payments equal to the Out-of-Pocket Expense Amount per Member during a Calendar Year, you will no longer be required to make co-payments for any additional covered services or supplies you incur during the remainder of that Year. If two or more Members in a family pay co-payments during a Year equal to the Out-of-Pocket Expense Amount shown for two or more Members of the same family, no further co-payments will be required from any Member of that family for the remainder of that Year.

Charges Which Do Not Apply Toward the Out-of-Pocket Expense Amount. Only charges that are considered covered will apply toward satisfaction of any Out-of-Pocket Amount. In addition, any expense applied to a deductible will not be applied toward an Out-of-Pocket Amount.

Any co-payments made for donor searches for transplants will not be applied toward satisfaction of your Out-of-Pocket Expense Amount. In addition, you will be required to continue to pay the co-payment for such services even after you have reached that amount.

MEDICAL BENEFIT MAXIMUMS

We do not make benefit payments for any Member in excess of any of the Medical Benefit Maximums.

YOUR MEDICAL BENEFITS

UTILIZATION REVIEW PROGRAMS

Benefits are provided only for Medically Necessary and appropriate services. Utilization Review is designed to work together with you and your provider to ensure you receive appropriate medical care and avoid unexpected out-of-pocket expense.

IMPORTANT: The Utilization Review Program requirements described in this section do not apply when coverage under this plan is secondary to another plan providing benefits for an Insured Employee or Family Member.

The utilization review program evaluates the medical necessity and appropriateness of care and the setting in which care is provided. Members and Physicians are advised if Anthem Blue Cross Life and Health has determined that services can be safely provided in an outpatient setting, or if an inpatient Stay is recommended. Services that are Medically Necessary and appropriate are certified by Anthem Blue Cross Life and Health and monitored so that Members know when it is no longer Medically Necessary and appropriate to continue those services.

This Plan includes the processes of pre-service, care coordination, and retrospective reviews to determine when services should be covered. Their purpose is to promote the delivery of cost-effective medical care by reviewing the use of procedures and, where appropriate, the setting or place of service where care is provided. This Plan requires that covered services be Medically Necessary for benefits to be provided.

Certain services require pre-service review of benefits in order for benefits to be provided. Participating Providers will initiate the review on your behalf. A Non-Participating Provider may or may not initiate the review for you. In both cases, it is your responsibility to initiate the process and ask your Physician to request pre-service review. You may also call Anthem Blue Cross Life and Health directly. Pre-service review criteria are based on multiple sources including medical policy, clinical guidelines, and pharmacy and therapeutics guidelines. Anthem Blue Cross Life and Health may determine that a service that was initially prescribed or requested is not Medically Necessary if you have not previously tried alternative treatments that are more cost effective.

It is the Member's responsibility to determine whether a particular service requires pre-service authorization. Read the following information that follows to assist in this determination and visit www.anthem.com or call the toll-free number for pre-service printed on the Member's identification card for any questions about making this determination.

It is also the Member's responsibility to see that his or her Physician starts the utilization review process before scheduling the Member for any service subject to the Utilization Review Program. If the Member receives any such service and does not follow the procedures set forth in this section, benefits will be reduced as shown under HOW BENEFITS ARE AFFECTED BY UTILIZATION REVIEWS.

Utilization Review Requirements

The stages of utilization review are pre-service review, care coordination review, and retrospective review.

Pre-service review determines in advance the medical necessity and appropriateness of certain procedures or admissions and the appropriate length of stay, if applicable. Pre-service review is required for the services listed below.

— Specific durable medical equipment.

— Admissions to a Skilled Nursing Facility.

— Advanced imaging procedures, including, but not limited to: Magnetic Resonance Imaging (MRI), Computer Axial Tomography (CAT scans), Positron Emission Tomography (PET scan), Magnetic Resonance Spectroscopy (MRS scan), Magnetic Resonance Angiogram (MRA scan), Echocardiography and Nuclear Cardiac Imaging. The Member may call customer service toll-free at 1-800-288-6928 to find out if an imaging procedure requires pre-service review.

— Behavioral health treatment for pervasive developmental disorder or autism, as specified in the section BENEFITS FOR PERVASIVE DEVELOPMENTAL DISORDER OR AUTISM.

Care coordination review determines whether services are Medically Necessary and appropriate when Anthem Blue Cross Life and Health is notified while service is ongoing, for example, an Emergency admission to the Hospital.

Retrospective review is performed to review services that have already been provided. This applies in cases when pre-service or care coordination review was not completed, or in order to evaluate and audit medical documentation subsequent to services being provided. Retrospective review may also be performed for services that continued longer than originally certified.

UTILIZATION REVIEW PROGRAMS

How Benefits Are Affected By Utilization Reviews

In order for the full benefits of this plan to be payable, all of the following criteria must be met:

A. The appropriate utilization reviews must be performed in accordance with this plan. Services that are not reviewed prior to or during service delivery will be reviewed retrospectively when the bill is submitted for benefit payment. If review results in the determination that part or all of the services were not Medically Necessary and appropriate, benefits will not be paid for those services. If the Member proceeds with any services that have been determined to be not Medically Necessary and appropriate at any stage of the utilization review process, benefits will not be provided for those services.

B. When pre-service review is performed and the admission, procedure or service is determined to be Medically Necessary and appropriate , benefits will be provided for the following:

- Scheduled, non-Emergency inpatient Hospital Stays, and Residential Treatment Center admissions.
- Specific outpatient services, including diagnostic treatment and other services.
- Specific outpatient surgeries performed in an outpatient facility or a doctor's office.
- Facility-based Care for the treatment of Mental or Nervous Disorders and substance abuse
- Transplant Service as follows:

  a. For bone, skin or cornea transplants, if the Physicians on the surgical team and the facility in which the transplant is to take place are approved by Anthem Blue Cross Life and Health for the transplant requested.

  b. For transplantation of heart, liver, lung, combination heart-lung, kidney, pancreas, simultaneous pancreas-kidney or bone marrow/stem cell and similar procedures if the providers of the related preoperative and postoperative services are approved and the transplant will be performed at a Centers of Medical Excellence (CME) facility.

- Air ambulance in a non-medical Emergency.
- A specified number of additional visits for physical therapy, physical medicine and occupational therapy if the Member needs more visits than is provided under the "Physical Therapy – Physical Medicine" provision of YOUR MEDICAL BENEFITS – MEDICAL CARE THAT IS COVERED. While there is no limit on the number of covered visits for Medically Necessary physical therapy, physical medicine, and occupational therapy, additional visits in excess of the stated number of visits must be authorized in advance.
- Specific durable medical equipment.
- Services provided in a Skilled Nursing Facility if you require daily skilled nursing or rehabilitation, as certified by your attending Physician.
- Advanced imaging procedures, including, but not limited to: Magnetic Resonance Imaging (MRI), Computer Axial Tomography (CAT scans), Positron Emission Tomography (PET scan), Magnetic Resonance Spectroscopy (MRS scan), Magnetic Resonance Angiogram (MRA scan), Echocardiography and Nuclear Cardiac Imaging.

— Behavioral health treatment for pervasive developmental disorder or autism, as specified in the section BENEFITS FOR PERVASIVE DEVELOPMENTAL DISORDER OR AUTISM.

C. Services that are not reviewed prior to or during service delivery will be reviewed retrospectively when the bill is submitted for benefit payment. If that review results in the determination that part or all of the services were not Medically Necessary and appropriate, benefits will not be paid for those services.

If the Member proceeds with any services that have been determined to be not Medically Necessary and appropriate at any stage of the utilization review process, benefits will not be provided for those services.

No benefits are payable unless the Member's coverage is in force at the time services are rendered, and the payment of benefits is subject to all terms and requirements of this Evidence of Coverage.

How To Obtain Utilization Reviews

It is always the Member's responsibility to confirm that the review has been performed. If the review is not performed, benefits will be reduced as shown under HOW BENEFITS ARE AFFECTED BY UTILIZATION REVIEWS.

1. **Pre-service Reviews**

Obtain required pre-service review before receiving scheduled services as follows:

For all scheduled services that are subject to utilization review, the Member or the Member's Physician must initiate the pre-service review at least five (5) working days prior to when the Member is scheduled to receive services.

The Member must tell his or her Physician that this plan requires pre-service review. The Member or the Member's Physician may initiate a pre-service review by calling toll-free 1-800-274-7767.

If the Member does not receive the certified service within 60 days of the certification, or if the nature of the service changes, a new pre-service review must be obtained.

Anthem Blue Cross Life and Health will certify services that are Medically Necessary and appropriate. For inpatient Hospital or Residential Treatment Center Stays, Anthem Blue Cross Life and Health will, if appropriate, specify a specific length of Stay for services. For Facility-based Care for the treatment of Mental or Nervous Disorders and substance abuse, Anthem Blue Cross Life and Health will, if appropriate, certify the type and level of services, as well as their duration. The Member, the Member's Physician and the provider of services will receive a written confirmation showing this information.

2. **Care Coordination Reviews**

If pre-service review was not performed, the Member, the Member's Physician, or the provider of service must contact Anthem Blue Cross Life and Health for care coordination review. For an Emergency Hospital admission or procedure, Anthem Blue Cross Life and Health must be notified within one working day of the admission or procedure, unless extraordinary circumstances* prevent such notification within that time period. The toll-free telephone number is 800-274-7767.

When a Participating Provider has been informed of the Member's need for utilization review, they may initiate the review on the Member's behalf. The Member may ask other providers to call the toll free number, or the Member may call Anthem Blue Cross Life and Health directly.

When Anthem Blue Cross Life and Health determines that the service is Medically Necessary and appropriate, Anthem Blue Cross Life and Health will, depending upon the type of treatment or procedure, specify the period of time for which the service is medically appropriate. Also, Anthem Blue Cross Life and Health will determine the medically appropriate setting.

If Anthem Blue Cross Life and Health determines that the service is not Medically Necessary and appropriate, the Member's Physician will be notified by telephone no later than 24 hours following Anthem Blue Cross Life and Health's decision. Written notice will be sent to the Member and the Member's Physician within two (2) business days following Anthem Blue Cross Life and Health's decision. However, care will not be discontinued until the Member's Physician has been notified and a plan of care that is appropriate for the Member's needs has been agreed upon.

3. **Retrospective Reviews**

Retrospective review is performed when Anthem Blue Cross Life and Health has not been notified of the services the Member received and therefore is unable to perform the appropriate review prior to the Member's discharge from the Hospital or completion of outpatient treatment. It is also performed when pre-service or care coordination review has been done, but services continue longer than originally certified. Retrospective review may also be performed for the evaluation and audit of medical documentation after services have been provided, whether or not pre-service or care coordination review was performed.

Such services which have been retrospectively determined to not be Medically Necessary and appropriate will be retrospectively denied certification.

THE MEDICAL NECESSITY REVIEW PROCESS

Anthem Blue Cross Life and Health works with Members and Members' health care providers to cover Medically Necessary and appropriate care and services. While the types of services requiring review and the timing of the reviews may vary, Anthem Blue Cross Life and Health is committed to ensuring that reviews are performed in a timely and professional manner. The following information explains Anthem Blue Cross Life and Health's review process.

1. A decision on the medical necessity of a pre-service request will be made no later than five (5) business days from receipt of the information reasonably necessary to make the decision, and based on the nature of the Member's medical condition.

   When your medical condition is such that you face an imminent and serious threat to your health, including the potential loss of life, limb, or other major bodily function and the normal five day timeframe described above would be detrimental to your life or health or could jeopardize your ability to regain maximum function, a decision on the medical necessity of a pre-service request will be made no later than 72 hours after receipt of the information reasonably necessary to make the decision (or within any shorter period of time required by applicable federal law, rule, or regulation).

2. A decision on the medical necessity of a care coordination request will be made no later than one (1) business day from receipt of the information reasonably necessary to make the decision, and based on the nature of the Member's medical condition. However, care will not be discontinued until the Member's Physician has been notified and a plan of care that is appropriate for the Member's needs has been agreed upon.

3. A decision on the medical necessity of a retrospective review will be made and communicated in writing to the Member and the Member's Physician no later than thirty (30) days from receipt of the information necessary to make the decision.

4. If Anthem Blue Cross Life and Health does not have the information it needs, it will make every attempt to obtain that information from the Member or the Member's Physician. If Anthem Blue Cross Life and Health is unsuccessful and a delay is anticipated, it will notify the Member or the Member's Physician of the delay and what is needed to make a decision. Anthem Blue Cross Life and Health will also inform the Member of when a decision can be expected following receipt of the needed information.

5. All pre-service, care coordination and retrospective reviews for medical necessity are screened by clinically experienced, licensed personnel (called "Review Coordinators") using pre-established criteria and Anthem Blue Cross Life and Health's medical policy. These criteria and policies are developed and approved by practicing providers not employed by Anthem Blue Cross Life and Health, and are evaluated at least annually and updated as standards of practice or technology changes. Requests satisfying these criteria are certified as Medically Necessary. Review Coordinators are able to approve most requests.

6. For pre-service and care coordination requests, written confirmation including the specific service determined to be Medically Necessary will be sent to the Member and Member's provider no later than two (2) business days after the decision, and the Member's provider will be initially notified by telephone within 24 hours of the decision for pre-service and care coordination reviews.

7. If the request fails to satisfy these criteria or medical policy, the request is referred to a Peer Clinical Reviewer. Peer Clinical Reviewers are health professionals clinically competent to evaluate the specific clinical aspects of the request and render an opinion specific to the medical condition, procedure and/or treatment under review. Peer Clinical Reviewers are licensed in California with the same license category as the requesting provider. When the Peer Clinical Reviewer is unable to certify the service, the requesting Physician is contacted by telephone for a discussion of the case. In many cases, services can be certified after this discussion. If the Peer Clinical Reviewer is still unable to certify the service, the Member's provider will be given the option of having the request reviewed by a different Peer Clinical Reviewer.

8. Only the Peer Clinical Reviewer may determine that the proposed services are not Medically Necessary and appropriate. The Member's Physician will be notified by telephone within 24 hours of a decision not to certify and will be informed at that time of how to request reconsideration. Written notice will be sent to the Member and the requesting provider within two (2) business days of the decision. This written notice will include:

    - an explanation of the reason for the decision,
    - reference of the criteria used in the decision to modify or not certify the request,
    - the name and phone number of the Peer Clinical Reviewer making the decision to modify or not certify the request,
    - how to request reconsideration if the Member or the Member's provider disagree with the decision.

9. Reviewers may be plan employees or an independent third party Anthem Blue Cross Life and Health chooses at its sole and absolute discretion.

10. The Member or the Member's Physician may request copies of specific criteria and/or medical policy by writing to the address shown on the Member's identification card. Anthem Blue Cross Life and Health discloses its medical necessity review procedures to health care providers through provider manuals and newsletters.

A determination of medical necessity does not guarantee payment or coverage. The determination that services are Medically Necessary is based on the clinical information provided. Payment is based on the terms of the Member's coverage at the time of service. These terms include certain exclusions, limitations, and other conditions. Payment of benefits could be limited for a number of reasons, including:

- The information submitted with the claim differs from that given by phone;
- The service is excluded from coverage; or
- The Member is not eligible for coverage when the service is actually provided.

Revoking or modifying an authorization. An authorization for services or care may be revoked or modified prior to the services being rendered for reasons including but not limited to the following:

- The Member's coverage under this plan ends;
- The Agreement with the PORAC and Anthem Blue Cross Life and Health terminates;
- You reach a benefit maximum that applies to the services in question; or
- Your benefits under the plan change so that the services in question are no longer covered or are covered in a different way.

QUESTIONS ABOUT OR DISAGREEMENTS WITH UTILIZATION REVIEW DETERMINATIONS

A. If the Member or the Member's Physician disagrees with a decision or questions how it was reached, the Member or the Member's Physician may request reconsideration. Requests for reconsideration (either by telephone or in writing) must be directed to the reviewer making the determination. The address and the telephone number of the reviewer are included on the Member's written notice of determination. Written requests must include medical information that supports the medical necessity of the services.

B. If the Member, the Member's representative or the Member's Physician acting on the Member's behalf find the reconsidered decision still unsatisfactory, a request for an appeal of the reconsidered decision may be submitted in writing to Anthem Blue Cross Life and Health.

C. In the event that the appeal decision still is unsatisfactory, the Member's remedy may be binding arbitration as stated elsewhere in this Evidence of Coverage.

UTILIZATION REVIEW PROGRAMS

EXCEPTIONS TO THE UTILIZATION REVIEW PROGRAM

From time to time, Anthem Blue Cross Life and Health may waive, enhance, modify, or discontinue certain medical management processes (including utilization management, case management, and disease management) if, in Anthem Blue Cross Life and Health's discretion, such a change furthers the provision of cost effective, value based and quality services. In addition, Anthem Blue Cross Life and Health may select certain qualifying health care providers to participate in a program that exempts them from certain procedural or medical management processes that would otherwise apply. Anthem Blue Cross Life and Health may also exempt claims from medical review if certain conditions apply.

If Anthem Blue Cross Life and Health exempts a process, health care provider, or claim from the standards that would otherwise apply, Anthem Blue Cross Life and Health is in no way obligated to do so in the future, or to do so for any other health care provider, claim, or Member. Anthem Blue Cross Life and Health may stop or modify any such exemption with or without advance notice.

You may determine whether a health care provider participates in certain programs by checking Anthem Blue Cross Life and Health's online provider directory on the website at **www.anthemcom/ca** or by calling the customer service telephone number listed on your ID card.

QUALITY ASSURANCE

Utilization review programs are monitored, evaluated, and improved on an ongoing basis to ensure consistency of application of screening criteria and medical policy, consistency and reliability of decisions by reviewers, and compliance with policy and procedure including but not limited to timeframes for decision making, notification and written confirmation. Our Board of Directors is responsible for medical necessity review processes through its oversight committees, including the Strategic Planning Committee, Quality Management Committee, and Physician Relations Committee. Oversight includes approval of policies and procedures, review and approval of self-audit tools, procedures, and results. Monthly process audits measure the performance of reviewers and Peer Clinical Reviewers against approved written policies, procedures, and timeframes. Quarterly reports of audit results and, when needed, corrective action plans are reviewed and approved through the committee structure.

CASE MANAGEMENT

The personal case management program enables Anthem Blue Cross Life and Health to authorize the Member to obtain medically appropriate care in a more economical, cost effective and coordinated manner during prolonged periods of intensive medical care. Anthem Blue Cross Life and Health has the right, through a case manager, to recommend an alternative plan of treatment which may include services not covered under this plan. It is not the Member's right to receive personal case management, nor does Anthem Blue Cross Life and Health have an obligation to provide it; Anthem Blue Cross Life and Health provides these services at its sole and absolute discretion.

How Case Management Works

Members may be identified for possible personal case management through the plan's utilization review procedures described under UTILIZATION REVIEW PROGRAMS, by the attending Physician, Hospital staff, or Anthem Blue Cross Life and Health claims reports. The Member or the Member's family may also call Anthem Blue Cross Life and Health.

Benefits for personal case management will be considered only when the following criteria are met:

1. The Member requires extensive long-term treatment;
2. Anthem Blue Cross Life and Health anticipates that such treatment utilizing services or supplies covered under this plan will result in considerable cost;
3. A cost-benefit analysis by Anthem Blue Cross Life and Health determines that the benefits payable under this plan for the alternative plan of treatment can be provided at a lower overall cost than the benefits the Member would otherwise receive under this plan while maintaining the same standards of care; and
4. The Member (or the Member's legal guardian) and the Member's Physician agree, in a letter of agreement, with Anthem Blue Cross Life and Health's recommended substitution of benefits and with the specific terms and conditions under which the alternative benefits are to be provided.

Alternative Treatment Plan. If Anthem Blue Cross Life and Health determines that the Member's needs could be met more efficiently, an alternate treatment plan may be recommended. This may include providing benefits not otherwise covered under this plan. A Anthem Blue Cross Life and Health case manager will review the medical records and discuss the Member's treatment with the attending Physician, the Member and the Member's family.

Anthem Blue Cross Life and Health makes treatment recommendations only; any decisions regarding treatment belong to the Member and the Member's Physician. The plan will in no way compromise the Member's freedom to make such decisions.

CASE MANAGEMENT

How Benefits Are Affected By Case Management

1. Benefits are provided for an alternative treatment plan on a case-by-case basis only. Anthem Blue Cross Life and Health has absolute discretion in deciding whether or not to authorize services in lieu of benefits for any Member, which alternatives may be offered and the terms of the offer.

2. Anthem Blue Cross Life and Health's authorization of services in lieu of benefits in a particular case in no way commits Anthem Blue Cross Life and Health to do so in another case or for another Member.

3. The personal case management program does not prevent Anthem Blue Cross Life and Health from strictly applying the expressed benefits, exclusions and limitations of this plan at any other time or for any other Member.

Note: Anthem Blue Cross Life and Health reserves the right to use the services of one or more third parties in the performance of the services outlined in the letter of agreement. No other assignment of any rights or delegation of any duties by either party is valid without the prior written consent of the other party.

PRESCRIPTION DRUG BENEFITS

Benefits for Prescription Drugs are determined by the type of pharmaceutical provider the Member chooses and the type of Drug provided. A Member can choose to have his or her Prescriptions filled by Participating Pharmacies, Non-Participating Pharmacies, or through the home delivery program. The Member can also choose between Generic Drugs, Brand Name Drugs on the Prescription Drug Formulary list, or non-Formulary Brand Name Drugs. However, the amount the Member will pay for his or her Prescription is affected by these choices.

PARTICIPATING PHARMACIES

When the Member presents his or her plastic Identification Card to a Participating Pharmacy to have a Prescription filled, the Member will only pay the applicable copayment amount for each covered Prescription and each refill. The Member may call **1-800-700-2541** (or TTY/TDD 1-800-905-9821) for assistance in locating a Participating Pharmacy.

Generic Drugs will be dispensed by Participating Pharmacies when the Prescription indicates a Generic Drug. When a Brand Name Drug is specified, but a Generic Drug equivalent exists, the Generic Drug will be substituted. Brand Name Drugs will be dispensed by Participating Pharmacies when the Prescription specifies a Brand Name Drug and states “dispense as written” or no Generic Drug equivalent exists.

Please note that presentation of a Prescription to a Pharmacy or pharmacist does not constitute a claim for benefit coverage. If you present a Prescription to a Participating Pharmacy, and the Participating Pharmacy indicates your Prescription cannot be filled or requires an additional copayment, this is not considered an adverse claim decision. If you want the Prescription filled, you will have to pay either the full cost or the additional copayment for the Prescription Drug. If you believe you are entitled to some plan benefits in connection with the Prescription Drug, submit a claim for reimbursement to the Pharmacy Benefits Manager at the address shown below:

Prescription Drug Program
Attn: Commercial Claims
P.O. Box 2872
Clinton, IA 52733-2872

Participating Pharmacies usually have claims forms, but, if the Participating Pharmacy does not have claim forms, claim forms and customer service are available by calling 1-800-700-2541 (or TTY/TDD 1-800-905-9821). Mail your claim, with the appropriate portion completed by the pharmacist, to the Pharmacy Benefits Manager within 90 days of the date of purchase. If it is not reasonably possible to submit the claim within that time frame, an extension of up to 12 months will be allowed.

NON-PARTICIPATING PHARMACIES

When the Member goes to a Non-Participating Pharmacy to purchase a Prescription Drug, the Member must pay the full cost of the Drug and submit a claim to the Pharmacy Benefits Manager at the address below:

Prescription Drug Program
Attn: Commercial Claims
P.O. Box 2872
Clinton, IA 52733-2872

Non-Participating Pharmacies do not have the Prescription Drug claim forms. The Member must bring a claim form to the Non-Participating Pharmacy and have the pharmacist complete the pharmacy portion of the form and sign it.

PRESCRIPTION DRUG BENEFITS

Claim forms and customer service are available by calling **1-800-700-2541** (or TTY/TDD 1-800-905-9821). The Member must mail the claim form with the appropriate portion completed by the pharmacist to the Pharmacy Benefits Manager within 90 days of the date of purchase. If it is not reasonably possible to submit the claim within that timeframe, an extension of up to 12 months will be allowed. The Member will be reimbursed according to the procedures described under the REIMBURSEMENT provision of this section.

HOME DELIVERY PROGRAM

You can order your Prescription through the Home Delivery Prescription Drug program, however, not all medications are available through the home delivery pharmacy. For any available Prescription Drugs ordered through the home delivery program, the Member will only pay the applicable copayment amount. Prescriptions can be filled through the home delivery program for up to a 90-day supply, whichever is greater.

The Prescription must state the Drug name, dosage, directions for use, quantity, Physician's name and phone number, patient's name and address, and be signed by a Physician. The Member must submit the Prescription with the appropriate payment for the amount of copayment (**$20**, **$40** or **$75**) and a properly completed order form. (If you are not sure what your copayment amount is, you may call the toll-free phone number listed below for assistance.) Additional cost, if any, resulting from the purchase of a Brand Name Drug will be billed to the Member.

The Member's first home delivery program Prescription must also include a completed patient profile questionnaire. The patient profile questionnaire can be obtained by calling the toll-free number below. The Member need only enclose the Prescription or refill notice and the appropriate payment for any subsequent home delivery program Prescriptions, or call the toll-free number. Copayments can be paid by check, money order or credit card.

To obtain order forms or verify whether the Drug is available through the home delivery program, contact Anthem Blue Cross Life and Health at **1-800-700-2541** (or TTY/TDD 1-800-905-9821). The form is also available on-line at www.anthem.com/ca.

Generic Drugs will be dispensed through the home delivery program when the Prescription indicates a Generic Drug. When a Brand Name Drug is specified, but a Generic Drug equivalent exists, the Generic Drug will be substituted. Brand Name Drugs will be dispensed through the home delivery program when the Prescription specifies a Brand Name and states "dispense as written" or when no Generic Drug equivalent exists.

SPECIALTY DRUG PROGRAM

Certain specified Specialty Drugs must be obtained through the specialty drug program unless the Member is given an exception from the specialty drug program (see PRESCRIPTION DRUG CONDITIONS OF SERVICE on pages 59-61 of this section). These specified Specialty Drugs that must be obtained through the Specialty Drug Program are limited up to a 30-day supply. The Specialty Drug Program will deliver the Member's medication by mail or common carrier (You cannot pick up your medication at Anthem Blue Cross Life and Health).

The Prescription for the Specialty Drug must state the Drug name, dosage, directions for use, quantity, Physician's name and phone number, patient's name and address, and be signed by a Physician.

PRESCRIPTION DRUG BENEFITS

The Member or Member's Physician may order the Member's Specialty Drug by calling 1-800-700-2541. When the Member calls the Specialty Drug Program, a dedicated care coordinator will guide the Member through the process up to and including actual delivery of the Member's Specialty Drug to the Member. (If you order your Specialty Drug by telephone, you will need to use a credit card or debit card to pay for it.) The Member may also submit a Prescription for a Specialty Drug with the appropriate payment for the amount of the purchase (You can pay by check, money order, credit card or debit card), and a properly completed order form to the Specialty Drug Program. The Member will only have to pay the cost of the applicable copayment as shown under COPAYMENTS AT A RETAIL PHARMACY or COPAYMENTS THOUGHT THE HOME DELIVERY PROGRAM of this section.

The first time the Member gets a Prescription for a Specialty Drug the Member must also include a completed intake referral form. The intake referral form is to be completed by calling the toll-free number below. The Member need only enclose the Prescription or refill notice and the appropriate payment for any subsequent Specialty Drug Prescriptions, or call the toll-free number. Copayments can be made by check, money order, credit card or debit card.

The Member or Member's Physician may obtain order forms or a list of Specialty Drugs that must be obtained through the specialty drug program by contacting Member Services at the number listed on their ID care or accessing the Web site at www.anthem.com/ca.

Specified Specialty Drugs must be obtained through the Specialty Drug Program. If the Member does not get Specialty Drugs through the specialty drug program, and the Member does not have an exception, the Member will not receive any benefits under this plan for such Drugs.

After this six month period, if the Member believes that he or she should still not be required to get his or her medication through the specialty drug program, the Member must again request an exception. If Anthem Blue Cross Life and Health denies the Member's request for an exception, it will be in writing and will tell the Member why the exception was not approved.

Urgent or emergency need of a Specialty Drug subject to the specialty drug program. If the Member is out of a Specialty Drug which must be obtained through the specialty drug program, Anthem Blue Cross Life and Health will authorize an override of the specialty drug program requirement for 72 hours, or until the next business day following a holiday or weekend, to allow the Member to get an emergency supply of medication if his or her Physician decides that it is appropriate and Medically Necessary. The Member may have to pay the applicable copayment, shown under COPAYMENTS AT A RETAIL PHARMACY or COPAYMENTS THOUGHT THE HOME DELIVERY PROGRAM of this section, for the 72-hour supply of his or her Drug.

If the Member orders his or her Specialty Pharmacy through the specialty drug program and it does not arrive, if the Member's Physician decides that it is Medically Necessary for the Member to have the Drug immediately, Anthem Blue Cross Life and Health will authorize an override of the specialty drug program requirement for a 30-day supply or less, to allow the Member to get an emergency supply of medication from a Participating Pharmacy. H. For a retail Pharmacy, the Prescription must not exceed the greater of a 34-day supply.

If the Physician prescribes a 60-day supply for Drugs classified as Schedule II for the treatment of attention deficit disorders, the Member has to pay double the amount of copayment for retail Pharmacies. If the Drugs are obtained through the home delivery program, the copayment will remain the same as for any other Prescription Drug.

PRESCRIPTION DRUG BENEFITS

PRESCRIPTION DRUG PROGRAM UTILIZATION REVIEW

These Prescription Drug benefits include utilization review of Prescription Drug usage for the Member's health and safety. If there are patterns of over-utilization or misuse of Drugs, our medical consultant will notify the Member's personal Physician and pharmacist. We reserve the right to limit benefits as a result of over-utilization of Drugs.

PRESCRIPTION DRUG FORMULARY

We use a Prescription Drug Formulary to help your Physician make prescribing decisions. The presence of a Drug on the plan's Prescription Drug Formulary list does not guarantee that you will be prescribed that Drug by your Physician. This list of outpatient Prescription Drugs is developed by a committee of Physicians and pharmacists to determine which medications are sound, therapeutic and cost effective choices. These medications, which include both Generic and Brand Name Drugs, are listed in the Prescription Drug Formulary. The Formulary is updated quarterly to ensure that the list includes Drugs that are safe and effective. Note: The Formulary Drugs may change from time to time.

Some Drugs may require prior authorization. If you have a question regarding whether a particular Drug is on our Formulary Drug list or requires prior authorization, please call Anthem Blue Cross Life and Health at 1-800-700-2541 (or TTY/TDD 1-800-905-9821).

Prior Authorization. Certain Drugs require written prior authorization of benefits in order for Members to receive plan benefits. Prior authorization criteria will be based on medical policy and the Pharmacy and Therapeutics Process established guidelines. The Member may need to try a Drug other than the one originally prescribed if it is determined through prior authorization that it should be clinically effective for the Member. However, if it is determined through prior authorization that the Drug originally prescribed is Medically Necessary, the Member will be provided the Drug originally requested at the applicable co-payment. (If, when you first become a Member, you are already being treated for a medical condition by a Drug that has been appropriately prescribed and is considered safe and effective for your medical condition, we will not require you to try a Drug other than the one you are currently taking.) If approved, Drugs requiring prior authorization for benefits will be provided to the Member after the Member makes the required co-payment.

In order for the Member to get a Drug that requires prior authorization, the Member's Physician must make a written request to Anthem Blue Cross Life and Health for the Member to get it using an Outpatient Prescription Drug Prior Authorization of Benefits form. The form can be sent by facsimile or mailed to Anthem Blue Cross Life and Health. The Physician may call Anthem Blue Cross Life and Health toll-free at 1-800-700-2541 (or TTY/TDD 1-800-905-9821) to request a copy of the form. This form is also available on-line at www.anthem.com/ca.

If the request is for urgently needed Drugs, after we receive the Outpatient Prescription Drug Prior Authorization of Benefits form:

- We will, within 72 hours, review the form and decide if benefits are approved. (As soon as we can, based on your medical condition, as Medically Necessary, we may take less than 72 hours to decide if benefits will be approved.) We will notify the Member and Member's Physician in writing of the decision - by facsimile to the Physician and by mail to the Member.

- If more information is needed to make a decision or we, for any reason, cannot make a decision, we will tell the Member's Physician, within 24 hours after we get the form, what information is missing and why we cannot make a decision. If, for reasons beyond our control, we cannot tell the Member's Physician within 24 hours what information is missing, we will tell the Physician that there is a problem as soon as we know that we cannot respond within 24 hours. In either event, we will tell the Member and Member's Physician that there is a problem – always in writing by facsimile and, when appropriate, by telephone call to the Member's Physician and in writing by mail to the Member.

- As soon as we can, based on the Member's medical condition, as Medically Necessary, but not more than 48 hours after it has all the information it needs to decide if benefits will be approved, we will notify the Member and Member's Physician in writing of the decision - by facsimile to the Physician and by mail to the Member.

If the request is not for urgently needed Drugs, after we get the Outpatient Prescription Drug Prior Authorization of Benefits form:

- Based on the Member's medical condition, as Medically Necessary, we will, within 5 business days or a shorter period as applicable by state or federal law, review the form and decide if benefits will be approved. We will tell the Member and Member's Physician in writing what was decided - by facsimile to the Physician and by mail to the Member.

- If more information is needed to make a decision, we will tell the Member's Physician, in writing within 5 business days or a shorter period as applicable by state or federal law after we get the request, what information is missing and why we cannot make a decision. If, for reasons beyond our control, we cannot tell the Member's Physician within 5 business days what information is missing, we will tell the Physician that there is a problem as soon as we know that we cannot respond within 5 business days. In any event, we will tell the Member and Member's Physician that there is a problem – in writing by facsimile and, when appropriate, by telephone call to the Physician, and in writing by mail to the Member.

- As soon as we can, based on the Member's medical condition, as Medically Necessary, within 5 business days or a shorter period as applicable by state or federal law after we have all the information it needs to decide if benefits will be approved, we will tell the Member and Member's physician in writing what was decided - by facsimile to the Physician and by mail to the Member.

While we are reviewing the Outpatient Prescription Drug Prior Authorization of Benefits form, a 72-hour Emergency supply of medication may be dispensed to the Member if the Member's Physician or pharmacist determines that it is appropriate and Medically Necessary. The Member may have to pay the applicable copayment, shown in SUMMARY OF BENEFITS section on page 14 and under COPAYMENTS AT A RETAIL PHARMACY on page 58 of this section, for the 72-hour supply of the Drug. If the request for the Specialty Pharmacy Drug is approved after the Member has received a 72-hour supply, the Member will receive the remainder of the 30-day supply of the Drug with no additional copayment.

If you have any questions regarding whether a Drug is on the Prescription Drug Formulary or requires prior authorization, please call 1-800-700-2541 (or TTY/TDD 1-800-905-9821).

If we deny a request for prior authorization of a Drug that is not part of our Formulary Drug list, you or your prescribing Physician may appeal our decision by calling Anthem Blue Cross Life and Health at 1-800-700-2541 (or TTY/TDD 1-800-905-9821). If you are not satisfied with the resolution of your inquiry, you may file a grievance with Anthem Blue Cross Life and Health by following the procedures described in the section entitled CLAIMS REVIEW / GRIEVANCE PROCEDURES.

PRESCRIPTION DRUG BENEFITS

Revoking or modifying a prior authorization. A prior authorization of benefits for Prescription Drugs may be revoked or modified prior to your receiving the Drugs for reasons including but not limited to the following:

- The Member's coverage under this plan ends;
- The Agreement with the PORAC and Anthem Blue Cross Life and Health terminates;
- The Member reaches a benefit maximum that applies to Prescription Drugs, if the plan includes such a maximum;
- Prescription Drug benefits under the plan change so that Prescription Drugs are no longer covered or are covered in a different way.

A revocation or modification of a prior authorization of benefits for Prescription Drugs applies only to unfilled portions or remaining refills of the Prescription, if any, and not to Drugs you have already received.

The outpatient Prescription Drugs included on the list of Formulary Drugs covered by the plan is decided by the Pharmacy and Therapeutics Process which is comprised of independent nurses, Physicians and pharmacists. The Pharmacy and Therapeutics Process meets quarterly and decides on changes to make in the Formulary Drug list based on recommendations from Anthem Blue Cross Life and Health and a review of relevant information, including current medical literature.

TERMINATION AND RELATED PROVISIONS

UNFAIR TERMINATION OF COVERAGE continued

The Member must make his or her request for review with the CDI within 180 days from the date he or she receives notice that his or her coverage will end, or the date his or her coverage is actually cancelled, whichever is later, but the Member should make his or her request as soon as possible after he or she receives notice that his or her coverage will end. This 180 day timeframe will not apply if, due to substantial health reasons or other incapacity, the Member is unable to understand the significance of the cancellation notice and act upon it. If a Member makes his or her request for review within 30 days after he or she receives notice that his or her coverage will end, or his or her coverage is still in effect when he or she makes the request, Anthem Blue Cross Life and Health will continue to provide coverage to the Member under the terms of this Plan until a final determination of the Member's request for review has been made by the CDI (this does not apply if the Member's coverage is cancelled for non-payment of premium). If the Member's coverage is maintained in force pending outcome of the review, premium must still be paid to Anthem Blue Cross Life and Health on his or her behalf.

CONTINUATION OF GROUP COVERAGE

CONSOLIDATED OMNIBUS BUDGET RECONCILIATION ACT (COBRA)

A. Eligibility for Continuation - Qualifying Events

Under the Act and Regulations, all CalPERS Employers are subject to the Consolidated Omnibus Reconciliation Budget Act of 1985 (COBRA). Under COBRA, Insured Employees or Family Members may choose to continue coverage under the Policy if it would otherwise end for any of the reasons shown below. These are called qualifying events, and they are:

For Insured Employee and Family Members . . .

1. The Insured Employee's termination of employment, for any reason other than gross misconduct;
2. A reduction in the Insured Employee's work hours;
3. For Members who may be covered as retirees, cancellation of that retiree coverage due to the Employer's filing for protection under the bankruptcy law (Chapter 11), provided the Member was covered prior to the filing of bankruptcy.

For Family Members . . .

4. The death of the Insured Employee;
5. The spouse's divorce or legal separation from the Insured Employee, or if the spouse vacates the residence shared with the Insured Employee;
6. The end of a child's status as a Family Member, in accordance with the Act and Regulations.
7. The Insured Employee’s entitlement to Medicare.

B. Requirements for Continuation

1. Notice

For qualifying events 1, 2 or 3 above, the Insured Employee's Employer will notify the Insured Employee of the right to continue coverage. For qualifying events 4 and 7, a Family Member will be notified of the continuation right. Anyone choosing to continue coverage must so notify the Board within 60 days of the date they receive notice of their continuation right.

In the event of an annuitant's death, it is the Family Member's responsibility to notify the Board within 30 days of the date of such qualifying event.

The member must inform the Board of qualifying events 5 or 6 above within 60 days of such event if the Family Member wishes to continue coverage. If the Insured Employee or Family Member fails to provide such timely notice to the Board, then such person shall not be entitled to elect continuation coverage.

Within 14 days of receipt of timely notice of a qualifying event, the Board shall provide written notice to eligible Insured Employees and Family Members of their continuation right at the address of such persons on the records of the Board. Such notice to an Employee or Annuitant shall be deemed notice to all other eligible Family Members residing with such Employee, Annuitant or spouse at the time such notification is made.

The continuation coverage may be chosen for all Members within a family, or only for selected Members. However, if a Member fails to elect the continuation when first eligible, that person may not elect the continuation at a later date.

Once the continuation of coverage under the Policy is elected, written notice of his/her rights to continuation of coverage shall be sent to each covered Insured Employee. In addition to the notice, an Evidence of Coverage booklet shall be sent to each enrolled Insured Employee at the address on enrollment document(s) and shall be deemed notice to such Insured Employee and his/her spouse.

2. Family Members Acquired During Continuation

A spouse or child newly acquired during the continuation period is eligible to be enrolled as a Family Member. The standard enrollment provisions of the Act and Regulations apply to enrollees during the continuation period. A Family Member acquired and enrolled during the period of continuation coverage which resulted from the original qualifying event is not eligible for a separate continuation if a subsequent qualifying event results in the person's loss of coverage*.

*Exception: A child who is born to, or placed for adoption with the Insured Employee during the COBRA continuation period will be eligible for a separate continuation if a subsequent qualifying event results in the person's loss of coverage.

3. Cost of Coverage

The benefits of continuation coverage are identical to the benefits in this Evidence of Coverage. The cost for this continuation coverage, called the "premium", must be paid each month during the COBRA continuation period to keep the continuation in force. The premium for continuation coverage may not exceed 102 percent of the prepayment fees specified for coverage under the Policy or any amendment, renewal or replacement of this plan. An eligible Insured Employee or his/her eligible Family Member(s) electing continuation coverage shall pay to Anthem Blue Cross Life and Health the premium for continuation coverage not later than the following dates:

a. If such election is made before the qualifying event, the premium may be paid with the written election, in the amount required for the first month of continuation coverage.

b. If such election is made after coverage is terminated due to a qualifying event, the premium for the period of continuation of coverage preceding the election shall be made within 45 days of the election together with the premium for the period beginning with the date of election and ending on the last day of the month in which the premium is paid for the period preceding the election. It is the intention of this provision to require that the initial premium payment include premiums due for continuation coverage from the date coverage terminates under the group plan to the end of the month in which the initial premium is paid.

Thereafter, the required premium shall be paid on or before the first day of each month for which continuation coverage is to be provided. If any premium for continuation coverage is not paid when due, Anthem Blue Cross Life and Health may issue a notice of cancellation of continuation of coverage. If payment is not received within 15 days of issuance of such notice of cancellation, we may cancel the continuation coverage on the sixteenth day following issuance of notice of cancellation. Termination of coverage shall be retroactive to the first day of the month for which the required premium has not been received.

For an Insured Employee who is eligible for an extension of continuation coverage due to having been determined by the Social Security Administration to be totally and permanently disabled, we shall charge 150 percent of the Insured Employee's premium prior to the disability. We must receive timely payment of the premium charge each month in order to maintain the coverage in force.

If a second Qualifying Event (as shown below) occurs during this extended continuation, the total COBRA continuation may continue up to 36 months from the date of the first Qualifying Event. The premium charge shall then be 150 percent of the applicable rate for the 19th through 36th month.

For purposes of determining premium charges payable for continued coverage, a person originally covered as a spouse will be treated as the Insured Employee if coverage is continued for him/herself alone. If such spouse and his or her child(ren) enroll, the premium charge payable will depend upon the number of persons covered. Each child continuing coverage other than as a dependent of an Insured Employee will pay the premium rate applicable to an Insured Employee (if more than one child is so enrolled, the premium will be the two-party or three-party rate depending upon the number of children enrolled).

4. Subsequent Qualifying Events

Once covered under the continuation plan, it's possible for a second qualifying event to occur. If that happens, a Family Member may be entitled to a second continuation period. This period will in no event continue beyond 36 months from the date the Member's coverage terminated due to the first qualifying event. Except for newborn or newly adopted children as described above, only a Member covered prior to the original qualifying event is eligible to continue coverage again as the result of a later qualifying event. A Family Member acquired during the continuation coverage is not eligible to continue coverage as the result of a later qualifying event, with the exception of newborns and adoptees as described above.

(For example: Continuation may begin due to termination of employment. During the continuation, if a child reaches the proper age limit of the plan, the child is eligible for a second continuation period. This second continuation would end no later than 36 months from the date coverage was terminated due to the first qualifying event - the termination of employment.)

5. When Continuation Coverage Begins

When continuation coverage is elected and the premium charge paid, coverage is reinstated back to the date the Member's coverage was terminated due to the qualifying event, so that no break in coverage occurs. Coverage for Family Members acquired and properly enrolled during the continuation begins in accordance with the enrollment provisions of the Act and Regulations.

C. When The Continuation Ends

This continuation will end on the earliest of:

1. The end of 18 months from the date the Member's coverage terminates, if the qualifying event was termination of employment or reduction in work hours. For a Member whose continuation coverage began under a prior plan, this term will be dated from the time the Member's coverage terminates under that prior plan due to the qualifying event.

Exceptions: A qualified beneficiary whose coverage is continued may extend that continuation coverage, provided that:

a. the Member whose COBRA continuation under this plan began on or after January 1, 2003, and ends in accordance with item 1, elects to continue coverage for medical benefits only under CalCOBRA for the balance of 36 months (COBRA and CalCOBRA combined). All COBRA eligibility must be exhausted before the Member is eligible to further continue coverage under CalCOBRA. See CALCOBRA CONTINUATION OF COVERAGE beginning on the next page for more information.

b. the disabled Member has been determined by the Social Security Administration to be totally and permanently disabled according to the statutory requirements of either Title II or Title XVI of the Social Security Act. The extension applies to all covered Members as well as the disabled Member. The disabled Member must furnish proof of the Social Security Administration's determination to his/her Employer during the first 18 months of COBRA continuation, but no later than 60 days after the later of the following events:

   i. the date of the Social Security Administration's determination of the Member's disability;
   ii. the date on which the original Qualifying Event occurs;
   iii. the date on which the qualified beneficiary loses coverage; or
   iv. the date on which the qualified beneficiary is informed of the obligation to provide the disability notice.

   The period of continuation will in no event continue beyond (1) the period of disability, or (2) a maximum of 29 months after the date the Insured Employee's coverage terminated due to the loss of employment, whichever occurs first. A Member whose COBRA continuation under this plan began on or after January 1, 2003, and ends in accordance with item 1, may elect to continue coverage for medical benefits only under CalCOBRA for the balance of 36 months (COBRA and CalCOBRA combined). All COBRA eligibility must be exhausted before the Member is eligible to further continue coverage under CalCOBRA. See CALCOBRA CONTINUATION OF COVERAGE beginning on the next page for more information.

2. The end of 36 months from the date the Member's coverage terminates, if the qualifying event was the death of the Insured Employee; divorce, legal separation, or the spouse vacates the residence shared with the Insured Employee; or the end of dependent child status. For a Member whose continuation coverage began under a prior plan, this term will be dated from the time the Member's coverage terminated under that prior plan due to the qualifying event.

3. The end of 36 months from the date the Insured Employee became entitled to Medicare, if the qualifying event was the Insured Employee's entitlement to Medicare.

4. The date the Policy terminates.

5. The end of the last period for which the final premium charge was paid.

6. The date after the date of election of COBRA, the Member first becomes eligible for Medicare.

7. The date after the date of election of COBRA, the Member first becomes covered under any other group health plan, except that if the Member's coverage under a group health plan contains any exclusion or limitation relating to a pre-existing condition, the Member's coverage will remain effective until the exclusions or limitations of the group health plan for pre-existing conditions no longer apply to the Member.

In the event that the Member is eligible for both continuation coverage and coverage under any other group health plan, the continuation benefits may be reduced so that the benefits and services the Member receives from all group coverages do not exceed 100 percent of the Maximum Allowed Amount incurred.

Subject to the Policy remaining in effect, a retired Insured Employee whose coverage began due to a Chapter 11 bankruptcy may continue coverage for the remainder of his life; that Insured Employee's covered Family Members may continue coverage for 36 months after their coverage terminates due to the Insured Employee's death. However, coverage could terminate prior to such time for either the Insured Employee or Family Member in accordance with items 4, 5, 6, or 7 above.

If a Member's continuation under this plan ends in accordance with items 1 or 3 that Member is eligible for Individual Conversion coverage. If a Member's continuation under this plan ends in accordance with items 1, 2, 3 or 4, the Member may be eligible for HIPAA coverage. The Employer will provide notice of these options within 180 days prior to the Member's COBRA termination date.

CALCOBRA CONTINUATION OF COVERAGE

If your continuation coverage under federal COBRA began on or after January 1, 2003, you have the option to further continue coverage under CalCOBRA for medical benefits only if your federal COBRA ended following:

1. 18 months after the qualifying event, if the qualifying event was termination of employment or reduction in work hours; or
2. 29 months after the qualifying event, if you qualified for the extension of COBRA continuation during total disability.

All federal COBRA eligibility must be exhausted before you are eligible to further continue coverage under CalCOBRA. You are not eligible to further continue coverage under CalCOBRA if you (a) are entitled to Medicare; (b) have other coverage or become covered under another group plan, as long as you are not subject to a pre-existing condition limitation under that coverage; or (c) are eligible for or covered under federal COBRA. Coverage under CalCOBRA is available for medical benefits only.

TERMS OF CALCOBRA CONTINUATION

Notice. Within 180 days prior to the date federal COBRA ends, we will notify you of your right to further elect coverage under CalCOBRA. If you choose to elect CalCOBRA coverage, you must notify Anthem Blue Cross Life and Health in writing within 60 days of the date your coverage under federal COBRA ends or when you are notified of your right to continue coverage under CalCOBRA, whichever is later. If you do not give Anthem Blue Cross Life and Health written notification within this time period, you will not be able to continue your coverage.

CONTINUATION OF GROUP COVERAGE

Please examine your options carefully before declining this coverage. You should be aware that companies selling individual health insurance typically require a review of your medical history that could result in higher cost or you could be denied coverage entirely.

Additional Family Members. A dependent acquired during the CalCOBRA continuation period is eligible to be enrolled as a Family Member. The standard enrollment provisions of the Policy apply to enrollees during the CalCOBRA continuation period.

Cost of Coverage. You will be required to pay the entire cost of your CalCOBRA continuation coverage (this is the "premium"). This cost will be:

1. 110% of the applicable group rate if your coverage under federal COBRA ended after 18 months; or

2. 150% of the applicable group rate if your coverage under federal COBRA ended after 29 months.

You must make payment to Anthem Blue Cross Life and Health within the timeframes specified below. We must receive payment of your premium each month to maintain your coverage in force.

Payment Dates. The first payment is due along with your enrollment form within 45 days after you elect continuation coverage. You must make this payment by first-class mail or other reliable means of delivery, in an amount sufficient to pay any required premium and premium due. Failure to submit the correct amount within this 45-day period will disqualify you from receiving continuation coverage under CalCOBRA. Succeeding premium payments are due on the first day of each following month.

If premium is not received when due, your coverage will be cancelled. Anthem Blue Cross Life and Health will cancel your coverage only upon sending you written notice of cancellation at least 30 days prior to cancelling your coverage (or any longer period of time required by applicable federal law, rule or regulation). If you make payment in full within this time period, your coverage will not be cancelled. If you do not make the required payment in full within this time period, your coverage will be cancelled as of 12:00 midnight on the thirtieth day after the date on which the notice of cancellation is sent (or any longer period of time required by applicable federal law, rule or regulation) and will not be reinstated. Any payment Anthem Blue Cross Life and Health receives after this time period runs out will be refunded to you within 20 business days. Note: You are still responsible for any unpaid premium payments that you owe to us, including premium payments that apply during any grace period.

Change of Premium. The amounts of the premium may be changed by Anthem Blue Cross Life and Health as of any premium due date. We will provide you with written notice at least 60 days prior to the date any premium increase goes into effect.

Accuracy of Information. You are responsible for supplying up-to-date eligibility information. We shall rely upon the latest information received as correct without verification but maintain the right to verify any eligibility information you provide.

CalCOBRA Continuation Coverage Under the Prior Plan. If you were covered through CalCOBRA continuation under the prior plan, your coverage may continue under this plan for the balance of the continuation period. However your coverage shall terminate if you do not comply with the enrollment requirements and premium payment requirements of this plan within 30 days of receiving notice that your continuation coverage under the prior plan will end.

CONTINUATION OF GROUP COVERAGE

When CalCOBRA Continuation Coverage Begins. When you elect CalCOBRA continuation coverage and pay the premium, coverage is reinstated back to the date federal COBRA ended, so that no break in coverage occurs.

For Family Members properly enrolled during the CalCOBRA continuation, coverage begins according to the enrollment provisions of the Policy.

When the CalCOBRA Continuation Ends. This CalCOBRA continuation will end on the earliest of:

1. The date that is 36 months after the date of your qualifying event under federal COBRA*;
2. The date the Policy terminates;
3. The end of the period for which premium is last paid (your coverage will be cancelled upon written notification, as explained under "Payment Dates" above);
4. The date you become covered under any other health plan, unless the other health plan contains an exclusion or limitation relating to a pre-existing condition that you have. In this case, this continuation will end at the end of the period for which the pre-existing condition exclusion or limitation applied;
5. The date you become entitled to Medicare; or
6. The date you become covered under a federal COBRA continuation.

CalCOBRA continuation will also end if you move out of our service area or if you commit fraud.

*If your CalCOBRA continuation coverage began under a prior plan, this term will be dated from the time of the qualifying event under that prior plan.

If your CalCOBRA continuation under this plan ends in accordance with items 1, 2 or 3, you may be eligible for HIPAA coverage or Individual Conversion coverage. You will receive notice of these options within 180 days prior to your CalCOBRA termination date. See the HIPAA COVERAGE AND INDIVIDUAL CONVERSION section on pages 84 & 85 for more information.

STATE CONTINUATION FOR QUALIFYING MEMBERS

Subject to payment of premium as stated in the Policy, coverage under this plan may be continued for you in accordance with the following provisions. You may elect this continuation instead of, or following, the CONSOLIDATED OMNIBUS BUDGET RECONCILIATION ACT (COBRA) described previously (The Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), or Title X of P. L. 99-272). However, this continuation may not be elected if the CALCOBRA CONTINUATION OF COVERAGE described previously was elected.

Qualifying Events for Continuation Coverage. You may continue your coverage if any of the following circumstances would otherwise terminate your coverage under this plan:

1. **For Insured Employees and Family Members:** the Insured Employee's termination of employment.
2. **For Family Members:** (a) the death of the Insured Employee; or (b) the spouse's divorce or legal separation from the Insured Employee.

Notice and Election. We will notify the Insured Employee or Family Member of the right to continue coverage within ten days after the Member becomes ineligible to continue coverage under this plan.

CONTINUATION OF GROUP COVERAGE

To elect this continuation, the Member (or guardian for a child under age 18) must properly file an application within 31 days from the qualifying event. An application is considered properly filed only if all requested information is supplied and the application is personally signed, dated, and given to the Board within 31 days of the qualifying event. We must receive this application from the Board within 90 days.

This continuation coverage may be chosen for all eligible Members, or only for selected Members. But if you fail to elect the continuation when first eligible, you may not elect it at a later date.

Cost of Coverage. You will be required to pay the entire cost of your continuation coverage. You are responsible to Anthem Blue Cross Life and Health for the timely payment of the premiums due for the continuation of any Member's coverage under this Policy. For purposes of determining premiums payable, the surviving spouse, divorced or legally separated spouse will be considered to be an Insured Employee.

If termination of employment is due to the Employer's cessation or reduction of business, such Employer must pay that part of the premium, if any, normally paid by the Employer, for the first three months of continuation. Thereafter, you may be required to pay the entire cost of your continuation coverage.

With respect to a surviving spouse, divorced or legally separated spouse, who is age 55 or over on the date coverage under this plan terminates, the cost of coverage after the first three years of continuation will be 102 percent of the Insured Employee's premium rates.

When Continuation Ends. This continuation will end on the earliest of:

1. The end of the period for which premiums were last paid;
2. The date the Policy terminates;
3. The end of 39 weeks from the date of termination of employment for an Insured Employee;
4. The end of 39 weeks from the date the continuation coverage began for the surviving or divorced spouse;
5. The date the surviving or divorced spouse remarries; or
6. The date the Member becomes eligible for coverage under an employer group health plan.

Exceptions:

1. Continuation coverage for a surviving spouse, divorced or legally separated spouse, who is age 55 years or over, will not end at the end of 39 weeks, but will end on the earlier of:
    a. The date the surviving spouse, divorced or legally separated spouse remarries;
    b. The date the surviving spouse, divorced or legally separated spouse becomes eligible for Medicare; or
    c. The date the surviving spouse, divorced or legally separated spouse becomes eligible for coverage under another employer group health plan.
2. Continuation coverage for a spouse due to divorce or legal separation, except as specified in 1 above, will end on the later of: (a) any of the dates listed above; or (b) such time as is provided by the divorce or legal separation judgment.

CONTINUATION OF GROUP COVERAGE

If your continuation under this plan ends in accordance with items 3 or 4 above, you are eligible for Individual Conversion. If your continuation under this plan ends in accordance with items 3, 4, or 5 above, you may be eligible for HIPAA coverage. See HIPAA COVERAGE AND INDIVIDUAL CONVERSION beginning on the next page for more information.

HIPAA COVERAGE AND INDIVIDUAL CONVERSION

If coverage for medical benefits under this plan ends, the Member may be eligible to enroll for coverage with any carrier or health plan that offers individual medical coverage. HIPAA coverage and Individual Conversion are available upon request if the Member meets the requirements stated below. Both HIPAA coverage and Individual Conversion are available for medical benefits only. Please note that the benefits and cost of these plans will differ from the Employer's plan.

HIPAA COVERAGE

The Health Insurance Portability and Accountability Act (HIPAA) is a federal law that provides an option for individual coverage when coverage under the Employer's group plan ends. To be eligible for HIPAA coverage, the Member must meet all of the following requirements:

1. The Member must have a minimum of 18 months of continuous health coverage, most recently under an employer-sponsored health plan, and have had coverage within the last 63 days.

2. The Member's most recent coverage was not terminated due to nonpayment of premium charges or fraud.

3. If continuation of coverage under the Employer plan was available under COBRA, CalCOBRA, or a similar state program, such coverage must have been elected and exhausted.

4. The Member must not be eligible for Medicare, Medi-Cal, or any group medical coverage and cannot have other medical coverage.

The Member must apply for HIPAA coverage within 63 days of the date their coverage under the Employer's plan ends. If a Member decides to enroll in HIPAA coverage, he or she will no longer qualify for Individual Conversion.

INDIVIDUAL CONVERSION

A. An Insured Employee whose coverage under the Employer's plan is terminated, other than by voluntary cancellation, termination of the Memorandum of Agreement by the Board, termination of the Policy by Anthem Blue Cross Life and Health, withdrawal of his or her Employer from participation in the Act, or failure to continue enrollment or to make contributions during continuation of enrollment in a non-pay status according to the Act, may apply on behalf of himself or herself and all enrolled Family Members for an Individual Membership Policy that may be in effect at the time of application for individual coverage.

B. A Family Member whose coverage under the Employer's plan terminates because of termination of enrollment of an Insured Employee, or because of loss of Family Member status, may apply for an Individual Membership Policy that may be in effect at the time of application for individual coverage.

C. A Member, eligible for an individual conversion plan as specified in A. and B. above, must submit a written application and make the first premium payment to Anthem Blue Cross Life and Health within 63 days following the date coverage under the Employer's plan ends. In such event, individual coverage shall become effective at 12:01 a.m. on the day following termination of coverage through the Employer.

If you decide to enroll in an Individual Conversion plan, you will no longer qualify for HIPAA coverage.

HIPAA COVERAGE AND INDIVIDUAL CONVERSION

The intention of conversion coverage is not to replace the coverage a Member has under this plan, but to make available a specified amount of coverage for medical benefits until the Member can find a replacement. The conversion plan provides lesser benefits than this plan and the provisions and rates differ.

When coverage under the Employer's group plan ends, the Member will receive more information about how to apply for Individual Conversion or HIPAA coverage, including a postcard for requesting an application and a telephone number to call if the Member has any questions. Any carrier or health plan that offers individual medical coverage must make HIPAA coverage available to qualified persons without regard to health status.

TERMINAL BENEFITS

In the event the Policy is terminated by Anthem Blue Cross Life and Health, we shall provide extension of benefits for a Member who is totally disabled at the time of such termination, subject to the following provisions:

A. If a Member is totally disabled when coverage ends and is under the treatment of a Physician, the benefits of the Policy shall continue to be provided under this section for services treating the totally disabling illness or injury, and for no other condition related to the condition causing the total disability, illness or injury or arising out of such totally disabling illness or injury. This extension of benefits is not available if the Member becomes covered under another group health plan that provides coverage without limitation for the disabling condition.

B. A Member confined as an inpatient in a Hospital or Skilled Nursing Facility is considered Totally Disabled as long as the inpatient Stay is Medically Necessary, and no written certification of the total disability is required.

C. A Member not confined as an inpatient who wishes to apply for total disability benefits must submit written certification by the Physician of the total disability. We must receive this certification within 30 days of the date coverage ends under the Policy. At least once every 60 days while benefits are extended, We must receive proof that the Member's total disability is continuing.

D. Benefits are provided until one of the following occurs:

   1. The Member is no longer Totally Disabled, or
   2. The maximum benefits of the Policy are paid, or
   3. The Member becomes covered under another group health plan that provides coverage without limitation for disabling illness or injury, or
   4. A period of 12 consecutive months has passed since the date coverage ended.

   Exception: If you are pregnant on the date of discontinuance of the Policy, your pregnancy and maternity care benefits under this plan will be continued subject to the following:

   1. Your pregnancy began while the Policy was in effect.
   2. You do not have to be totally disabled.
   3. Your extension of benefits will end when any one of the following circumstances occurs:
      a. You are no longer pregnant.
      b. The maximum benefits available to you under this plan are paid.

GENERAL PROVISIONS

Evidence of Coverage

Anthem Blue Cross Life and Health shall issue to the Insured Employee an Evidence of Coverage booklet. This Evidence of Coverage booklet is not the Policy. It does not change coverage under the Policy in any way. This Evidence of Coverage booklet, which is evidence of coverage under the Policy, is subject to all of the terms and conditions of that Policy.

Identification Cards

Anthem Blue Cross Life and Health shall issue to the Insured Employee an identification card to which the Insured Employee and Family Members are entitled. Possession of an identification card confers no right to services or other benefits of the Policy. To be entitled to services or benefits, the holder of the card must, in fact, be a Member on whose behalf applicable prepayment fees under the Policy have actually been paid. Any person receiving services or other benefits to which he or she is not then entitled pursuant to the provisions of the Policy is chargeable therefore at prevailing rates.

Medical Necessity

The benefits of this Evidence of Coverage are provided only for services that are Medically Necessary. The services must be ordered by the attending Physician for the direct care and treatment of a covered illness, injury or condition, except for routine care, dental care and lenses following surgery as specifically stated. They must be standard medical practice where received for the illness, injury or condition being treated and must be legal in the United States. When an inpatient Hospital Stay is necessary, services are limited to those which could not have been performed before admission. The process used to authorize or deny health care services under this plan is available to you upon request.

Expense in Excess of Benefits

Anthem Blue Cross Life and Health is not liable for any expense the Member incurs in excess of the benefits of this Evidence of Coverage.

Blue Cross and/or Blue Shield Providers

Anthem Blue Cross Life and Health has a variety of relationships with other Blue Cross and/or Blue Shield Licensees referred to generally as “Inter-Plan Programs”. Whenever you obtain healthcare services, the claims for these services may be processed through one of these Inter-Plan Programs, which include the BlueCard® Program and may include negotiated National Account arrangements available between Anthem Blue Cross Life and Health and other Blue Cross and Blue Shield Licensees.

Typically, you may obtain care from healthcare providers that have a contractual agreement (i.e., are “participating providers”) with the local Blue Cross and/or Blue Shield Licensee in that geographic area (“Host Blue”). In some instances, you may obtain care from non-participating healthcare providers. Anthem Blue Cross Life and Health's payment practices in both instances are described below.

Under the BlueCard® Program, when you access covered healthcare services within the geographic area served by a Host Blue, Anthem Blue Cross Life and Health will remain responsible for fulfilling their contractual obligations. However, the Host Blue is responsible for contracting with and generally handling all interactions with its participating healthcare providers.

GENERAL PROVISIONS

Whenever you access covered healthcare services and the claim is processed through the BlueCard® Program, the amount you pay for covered healthcare services is calculated based on the lower of:

- The billed covered charges for your covered services, or
- The negotiated price that the Host Blue makes available to Anthem Blue Cross Life and Health.

Often this "negotiated price" will be a simple discount that reflects an actual price that the Host Blue pays to your healthcare provider. Sometimes it is an estimated price that takes into account special arrangements with your healthcare provider or provider group that may include types of settlements, incentive payments, and/or other credits or charges. Occasionally it may be an average price, based on a discount that results in expected average savings for similar types of healthcare providers after taking into account the same types of transactions as with an estimated price.

Estimated pricing and average pricing, going forward, also take into account adjustments to correct for over- or underestimation of modifications of past pricing for the types of transaction modifications noted above. However such adjustments will not affect the price Anthem Blue Cross Life and Health uses for your claim because they will not be applied retroactively to claims already paid.

Laws in a small number of states may require the Host Blue to add a surcharge to your calculation. If any state laws mandate other liability calculation methods including a surcharge, Anthem Blue Cross Life and Health would then calculate your liability for any covered healthcare services according to applicable law.

Providers available to you through the BlueCard Program have not entered into contracts with Anthem Blue Cross Life and Health. If you have any questions or complaints about the BlueCard Program, please call Anthem Blue Cross Life and Health at the customer service telephone number listed on your ID card.

Payment to Providers

The benefits of this plan will be paid directly to Participating Providers, Centers of Medical Excellence and medical transportation providers. Also, we will pay other providers of service directly when you assign benefits in writing. If another party pays for your medical care and you assign benefits in writing, we will pay the benefits of this plan to that party. These payments will fulfill our obligation to you for those covered services.

Exception: Under certain circumstances we will pay the benefits of this plan directly to a provider or third party even without your assignment of benefits in writing. To receive direct payment, the provider or third party must provide Anthem Blue Cross Life and Health the following:

1. Proof of payment of medical services and the provider's itemized bill for such services;
2. If the Insured Employee does not reside with the patient, either a copy of the judicial order requiring the Insured Employee to provide coverage for the patient or a state approved form verifying the existence of such judicial order which would be filed with Anthem Blue Cross Life and Health on an annual basis;
3. If the Insured Employee does not reside with the patient, and if the provider is seeking direct reimbursement, an itemized bill with the signature of the custodian or guardian certifying that the services have been provided and supplying on an annual basis, either a copy of the judicial order requiring the Insured Employee to provide coverage for the patient or a state approved form verifying the existence of such judicial order;
4. The name and address of the person to be reimbursed, the name and policy number of the Insured Employee, the name of the patient, and other necessary information related to the coverage.

Right of Recovery

Whenever payment has been made in error, Anthem Blue Cross Life and Health will have the right to recover such payment from you or, if applicable, the provider, in accordance with applicable laws and regulations. In the event Anthem Blue Cross Life and Health recovers a payment made in error from the provider, except in cases of fraud or misrepresentation on the part of the provider, Anthem Blue Cross Life and Health will only recover such payment from the provider within 365 days of the date Anthem Blue Cross Life and Health made the payment on a claim submitted by the provider. Anthem Blue Cross Life and Health reserves the right to deduct or offset any amounts paid in error from any pending or future claim.

Under certain circumstances, if Anthem Blue Cross Life and Health pays your healthcare provider amounts that are your responsibility, such as deductibles, co-payments or co-insurance, Anthem Blue Cross Life and Health may collect such amounts directly from you. You agree that Anthem Blue Cross Life and Health has the right to recover such amounts from you.

Anthem Blue Cross Life and Health has oversight responsibility for compliance with provider and vendor and subcontractor contracts. Anthem Blue Cross Life and Health may enter into a settlement or compromise regarding enforcement of these contracts and may retain any recoveries made from a provider, vendor, or subcontractor resulting from these audits if the return of the overpayment is not feasible.

Anthem Blue Cross Life and Health has established recovery policies to determine which recoveries are to be pursued, when to incur costs and expenses, and whether to settle or compromise recovery amounts. Anthem Blue Cross Life and Health will not pursue recoveries for overpayments if the cost of collection exceeds the overpayment amount. Anthem Blue Cross Life and Health may not provide you with notice of overpayments made by Anthem Blue Cross Life and Health or you if the recovery method makes providing such notice administratively burdensome.

Continuity of Care after Termination of Provider

Subject to the terms and conditions set forth below, we will provide benefits to a Member at the Participating Provider level for covered services (subject to applicable co-payments, coinsurance, deductibles and other terms) received from a provider at the time the provider's contract is terminated by a Blue Cross or Blue Shield Plan (unless the provider's contract is terminated for reasons of medical disciplinary cause or reason, fraud, or other criminal activity). This does not apply to a provider who voluntarily terminates his or her contract.

The Member must be under the care of the Participating Provider at the time the provider's contract terminates. The terminated provider must agree in writing to provide services to the Member in accordance with the terms and conditions of his or her agreement with the Blue Cross or Blue Shield plan prior to termination. The provider must also agree in writing to accept the terms and reimbursement rates under his or her agreement with the Blue Cross or Blue Shield plan prior to termination. . If the provider does not agree with these contractual terms and conditions, we are not required to continue the provider's services beyond the contract termination date.

We will provide such benefits for the completion of covered services by a terminated provider only for the following conditions:

1. An acute condition. An acute condition is a medical condition that involves a sudden onset of symptoms due to an illness, injury, or other medical problem that requires prompt medical attention and that has a limited duration. Completion of covered services shall be provided for the duration of the acute condition.
2. A serious chronic condition. A serious chronic condition is a medical condition caused by a disease, illness, or other medical problem or medical disorder that is serious in nature and that persists without full cure or worsens over an extended period of time or requires ongoing treatment to maintain remission or prevent deterioration. Completion of covered services shall be provided for a period of time necessary to complete a course of treatment and to arrange for a safe transfer to another provider, as determined by Anthem Blue Cross Life and Health in consultation with you and the terminated provider and consistent with good professional practice. Completion of covered services shall not exceed twelve (12) months from the time you enroll in this plan.
3. A pregnancy. A pregnancy is the three trimesters of pregnancy and the immediate postpartum period. Completion of covered services shall be provided for the duration of the pregnancy.

Please contact customer service at the telephone number listed on your ID card to request continuity of care or to obtain a copy of the written policy. Eligibility is based on the Member's clinical condition and is not determined by diagnostic classifications. Continuity of care does not provide coverage for services not otherwise covered under the plan.

We will notify you by telephone, and the provider by telephone and facsimile, as to whether or not your request for continuity of care is approved. If approved, you will be financially responsible only for applicable deductibles, coinsurance, and co-payments under the plan. Financial arrangements with terminated providers are negotiated on a case-by-case basis. We will request that the terminated provider agree to accept reimbursement and contractual requirements that apply to Participating Providers, including payment terms. If the terminated provider does not agree to accept the same reimbursement and contractual requirements, we are not required to continue that provider's services. If you disagree with our determination regarding continuity of care, you may file a complaint with Anthem Blue Cross Life and Health as described in the COMPLAINT NOTICE.

CLAIMS REVIEW / GRIEVANCE PROCEDURES

The plan provides that treatment or service must be Medically Necessary and be covered by this plan. The fact that your attending Physician may prescribe, order, recommend or approve a service or treatment does not, of itself, make it Medically Necessary or make the service or treatment an allowable expense, even if it is not specifically listed in the Evidence of Coverage as an exclusion. Anthem Blue Cross Life and Health has the responsibility for determining whether claims are payable. A practicing physician-consultant retained by Anthem Blue Cross Life and Health must agree if the denial is based on the lack of medical necessity. The practicing physician-consultant shall have the background appropriate to the clinical issues in questions.

Action on your claim, including any denial, will be given in writing, including the reason for any denial.

NOTE: You should use the following Anthem Blue Cross Life and Health grievance procedures for disputes over coverage and/or benefits, or if you are dissatisfied with the quality of care or your access to care. For matters of eligibility, you should contact CalPERS Office of Health Plan Administrator at P.O. Box 1953, Sacramento, CA 95812-1953.

The following procedures shall be used to resolve a dispute:

1. Objection to Claims Processing or Denial

If you do not agree with the action Anthem Blue Cross Life and Health has taken on your claim, either you or your attending physician, acting as your authorized representative, may request reconsideration. To request reconsideration you may telephone Anthem Blue Cross Life and Health at 800-288-6928 or send a written request to Anthem Blue Cross Life and Health Insurance Company at P.O. Box 60007, Los Angeles, CA 90060-0007, Attn: PORAC Unit. Anthem Blue Cross Life and Health's customer service staff will answer your questions or assist you in resolving your issue.

If you are not satisfied with the resolution based on your initial inquiry, you may request a copy of the Plan Grievance Form from the customer service representative. You may complete and return the form to Anthem Blue Cross Life and Health, or ask the customer service representative to complete the form for you over the telephone. You may also submit a grievance online or print the Plan Grievance Form by accessing the Web site at **www.anthem.com/ca**. You must submit your grievance to Anthem Blue Cross Life and Health no later than 180 days following the date you receive a denial notice from Anthem Blue Cross Life and Health or any other incident or action with which you are dissatisfied. Your issue will then become part of Anthem Blue Cross Life and Health's formal grievance process and will be resolved accordingly.

All grievances received by Anthem Blue Cross Life and Health will be acknowledged in writing, together with a description of how Anthem Blue Cross Life and Health proposes to resolve the grievance. After Anthem Blue Cross Life and Health has reviewed your grievance, you will be sent a written statement on its resolution within 30 days. If your case involves an imminent threat to your health, including, but not limited to, the potential loss of life, limb, or major bodily function, review of your grievance will be expedited and resolved within three days.

If you have questions or concerns about your outpatient Prescription Drug coverage, you may call the Pharmacy Customer Service number listed on your ID card. If you are dissatisfied with the resolution of your inquiry and want to file a grievance, you may write to Anthem Blue Cross Life and Health at the address listed above and follow the formal grievance process.

2. Special Independent Medical Reviews

A. Objection to Denial of Experimental or Investigational Treatment. If coverage for a proposed treatment is denied because Anthem Blue Cross Life and Health determines that the treatment is Experimental or Investigational, you may ask that the denial be reviewed by an external independent medical review organization contracting with the California Department of Insurance ("CDI"). Your request for this review may be submitted to the CDI. You pay no application or processing fees of any kind for this review. You have the right to provide information in support of your request for review. A decision not to participate in this review process may cause you to forfeit any statutory right to pursue legal action against Anthem Blue Cross Life and Health regarding the disputed health care service. Anthem Blue Cross Life and Health will send you an application form and an addressed envelope for you to use to request this review with any grievance disposition letter denying coverage for this reason. To request this review, please call or write to Anthem Blue Cross Life and Health at the location shown above under item 1. To qualify for this review, all of the following conditions must be met:

1. You have a life-threatening or seriously debilitating condition, described as follows:
   - A life-threatening condition is a condition or disease where the likelihood of death is high unless the course of the disease is interrupted or a condition or disease with a potentially fatal outcome where the end point of clinical intervention is the patient's survival.
   - A seriously debilitating condition is a disease or condition that causes major, irreversible morbidity.
2. Your physician must certify that either (a) standard treatment has not been effective in improving your condition, (b) standard treatment is not medically appropriate, or (c) there is no more beneficial standard treatment covered by this plan than the proposed treatment.
3. The proposed treatment must be recommended by either (a) a Participating Provider or (b) a board certified or board eligible Physician qualified to treat you who certifies in writing that the proposed treatment is more likely to be beneficial than standard treatment. This certification must include a statement of the evidence relied upon.
4. If this review is requested either by you or by a qualified Non-Participating Provider (as described above), the requestor must supply two items of acceptable medical and scientific evidence. This evidence consists of the following sources:
   a) Peer-reviewed scientific studies published in or accepted for publication by medical journals that meet nationally recognized standards;
   b) Medical literature meeting the criteria of the National Institutes of Health's National Library of Medicine for indexing in Index Medicus, Excerpta Medicus (EMBASE), Medline, and MEDLARS database of Health Services Technology Assessment Research (HSTAR);
   c) Medical journals recognized by the Secretary of Health and Human Services, under Section 1861(t)(2) of the Social Security Act;
   d) Either of the following: (i) The American Hospital Formulary Services Drug Information, or (ii) the American Dental Association Accepted Dental Therapeutics;

e) Any of the following references, if recognized by the federal Centers for Medicare and Medicaid Services as part of an anticancer chemotherapeutic regimen: (i) the Elsevier Gold Standard's Clinical Pharmacology, (ii) the National Comprehensive Cancer Network Drug and Biologics Compendium, or (iii) the Thomson Micromedex DrugDex;

f) Findings, studies or research conducted by or under the auspices of federal governmental agencies and nationally recognized federal research institutes, including the Federal Agency for Health Care Policy and Research, National Institutes of Health, National Cancer Institute, National Academy of Sciences, Centers for Medicare and Medicaid Services, Congressional Office of Technology Assessment, and any national board recognized by the National Institutes of Health for the purpose of evaluating the medical value of health services; and

g) Peer reviewed abstracts accepted for presentation at major medical association meetings.

In all cases, the certification must include a statement of the evidence relied upon.

You are not required to go through Anthem Blue Cross Life and Health's grievance process for more than 30 days. If your grievance needs expedited review, you are not required to go through Anthem Blue Cross Life and Health's grievance process for more than three days.

You must request this review within six months of the date you receive a denial notice from Anthem Blue Cross Life and Health in response to your grievance, or from the end of the 30 day or three day grievance period if your case involves an imminent threat to your health, whichever applies. This application deadline may be extended by the CDI for good cause.

Within three business days of receiving notice of your request for review Anthem Blue Cross Life and Health will send the reviewing panel all relevant medical records and documents in their possession, as well as any additional information submitted by you or your Physician. Any newly developed or discovered relevant medical records identified by Anthem Blue Cross Life and Health or by a Participating Provider after the initial documents are sent will be immediately forwarded to the reviewing panel. The external independent review organization will complete its review and render its opinion within 30 days of its receipt of request for review (or within seven days if your Physician determines that the proposed treatment would be significantly less effective if not provided promptly). This timeframe may be extended by up to three days for any delay in receiving necessary records.

B. Independent Medical Review of Grievances Involving a Disputed Health Care Service

You may request an independent medical review (IMR) of disputed health care services from the California Department of Insurance (CDI) if you believe that we have improperly denied, modified, or delayed health care services. A "disputed health care service" is any health care service eligible for coverage and payment under your plan that has been denied, modified, or delayed by Anthem Blue Cross Life and Health, in whole or in part because the service is not Medically Necessary.

The IMR process is in addition to any other procedures or remedies that may be available to you. You pay no application or processing fees of any kind for IMR. You have the right to provide information in support of the request for IMR. We must provide you with an IMR application form with any grievance disposition letter that denies, modifies, or delays health care services. A decision not to participate in the IMR process may cause you to forfeit any statutory right to pursue legal action against Anthem Blue Cross Life and Health regarding the disputed health care service.

Eligibility: The CDI will review your application for IMR to confirm that:

1. (a) Your provider has recommended a health care service as Medically Necessary, or

   (b) You have received urgent care or Emergency Care that a provider determined was Medically Necessary, or

   (c) You have been seen by a Participating Provider for the diagnosis or treatment of the medical condition for which you seek independent review;

2. The disputed health care service has been denied, modified, or delayed by Anthem Blue Cross Life and Health, based in whole or in part on a decision that the health care service is not Medically Necessary; and

3. You have filed a grievance with Anthem Blue Cross Life and Health and the disputed decision is upheld or the grievance remains unresolved after 30 days. If your grievance requires expedited review, you may bring it immediately to the CDI's attention. The CDI may waive the requirement that you follow our grievance process in extraordinary and compelling cases.

You must apply for IMR within six months of the date you receive a denial notice from Anthem Blue Cross in response to your grievance or from the end of the 30 day or three day grievance period, whichever applies. This application deadline may be extended by the CDI for good cause.

If your case is eligible for IMR, the dispute will be submitted to a medical specialist who will make an independent determination of whether or not the care is Medically Necessary. You will receive a copy of the assessment made in your case. If the IMR determines the service is Medically Necessary, Anthem Blue Cross Life and Health will provide benefits for the health care service.

For non-urgent cases, the IMR organization designated by the CDI must provide its determination within 30 days of receipt of your application and supporting documents. For urgent cases involving an imminent and serious threat to your health, including, but not limited to, serious pain, the potential loss of life, limb, or major bodily function, or the immediate and serious deterioration of your health, the IMR organization must provide its determination within three business days.

For more information regarding the IMR process or to request an application form, please call Anthem Blue Cross Life and Health at 800-288-6928.

3. Time Limits for Filling an Objection

The reconsideration request must be made within 60 days of the denial of your claim and must give the reasons you believe the claim should be paid.

4. Time Limit for Anthem Blue Cross Life and Health Review of Objection

Anthem Blue Cross Life and Health will acknowledge receipt of a complaint by written notice to the complainant within 20 days. Anthem Blue Cross Life and Health will then either affirm or resolve the denial within 30 days. If your case involves an imminent threat to your health**,** including, but not limited to, the potential loss of life, limb, or major bodily function, review of your grievance will be expedited.

If Anthem Blue Cross Life and Health affirms the denial or fails to respond within 30 days after receiving your request for review and you still disagree, you may proceed to either item 6 or item 7 below.

CLAIMS REVIEW / GRIEVANCE PROCEDURES

5. Instructions for Grievances Regarding Coverage, Disputed Health Care Services, Eligibility, Malpractice and Bad Faith:

Coverage grievances: If you have followed the grievance procedures on the previous pages and are still dissatisfied you may proceed to item 6: Administrative Appeal Process or item 7: Binding Arbitration in the alternative. If your coverage dispute is within the jurisdictional limits of Small Claims Court, you may proceed through that court.

Note: CalPERS has no authority to rule over issues of medical malpractice or involving allegations of bad faith.

Disputed Health Care Service grievances: A disputed health care service grievance concerns any health care service eligible for coverage and payment under this Evidence of Coverage booklet that has been denied, modified, or delayed in whole or in part due to a finding that the service is not Medically Necessary. A decision regarding a disputed health care service relates to the practice of medicine and is not a coverage grievance, and includes decisions as to whether a particular service is experimental or investigational.

If you are still dissatisfied after you have followed the grievance procedures on pages 97 through 99 and received a response regarding the grievance filed with the California Department of Insurance (See Independent Medical Review of Grievances Involving a Disputed Health Care Service on pages 99 & 100), you may proceed to item 6. CalPERS Administrative Appeal Process, or item 7. Binding Arbitration is the alternative. If your coverage dispute is within the jurisdictional limits of Small Claims Court, you may proceed through that court.

Note: CalPERS has no authority to rule over issues of medical malpractice or involving allegations of bad faith.

Eligibility grievances: These issues should always be referred directly to CalPERS at the address noted on pages 101 & 102.

Malpractice grievances: Claims of malpractice should be taken up directly with the provider(s) of medical care.

Bad faith grievances: You must proceed to item 7: Binding Arbitration for claims for benefits involving charges of bad faith.

6. CalPERS Administrative Appeal Process

Only eligibility grievances and coverage grievances which concern the denial or approval of health care services substantially based on a finding that the provision of a particular service is included or excluded as a covered benefit under the Evidence of Coverage booklet may be appealed directly to CalPERS. CalPERS staff will conduct an administrative review upon your appeal of Anthem Blue Cross Life and Health's denial of coverage grievance. **Note: Anthem Blue Cross Life and Health reserves the right to dispute or challenge CalPERS jurisdiction in particular matters.** Your written appeal must be submitted to CalPERS within 30 days of the postmark date of Anthem Blue Cross Life and Health's letter of denial following your grievance.

If the dispute remains unresolved during the administrative review process, the matter may then proceed to an Administrative Hearing. During the Administrative Hearing, evidence and testimony will be presented to an Administrative Law Judge. As an alternative to this hearing, you may have recourse to Binding Arbitration. **Note: You must choose between the Administrative Hearing and Binding Arbitration. You may not take the same grievance through both procedures.** You may withdraw your appeal to CalPERS at any time, and proceed to item 7: Binding Arbitration.

CLAIMS REVIEW / GRIEVANCE PROCEDURES

To file for an Administrative Hearing, please contact CalPERS Office of Health Plan Administrator, P.O. Box 1953, Sacramento, CA, 95812-1953 or call the CalPERS Customer Service and Education Division (CSED) at **888 CalPERS** (or **888**-225-7377) for information.

7. Binding Arbitration (Small Claims Court)

If you do not use item 6, or if it does not apply, binding arbitration is the final step in resolving your grievance. Any dispute or claim, of whatever nature, arising out of, in connection with, or in relation to this plan or the Policy or breach or rescission thereof, or in relation to care or delivery of care, including any claim based on contract, tort or statute must be resolved by arbitration if the amount sought exceeds the jurisdictional limit of the small claims. Any dispute regarding a claim for damages within the jurisdictional limits of the small claims court will be resolved in such court. **Note: A small claims court judgment cannot be appealed.**

The Federal Arbitration Act shall govern the interpretation and enforcement of all proceedings under this Binding Arbitration provision. To the extent that the Federal Arbitration Act is inapplicable, or is held not to require arbitration of a particular claim, state law governing agreements to arbitrate will apply.

The Member and Anthem Blue Cross Life and Health agree to be bound by these arbitration provisions and acknowledge that they are giving up their right to trial by jury for bother medical malpractice claims and any other disputes.

Under federal law, group health plans and health insurance issuers offering group health insurance coverage generally may not restrict benefits for any Hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery or less than 96 hours following a delivery by cesarean section. However the plan or issuer may pay for a shorter stay if the attending Physician (e.g., your Physician, nurse midwife, or physician assistant), after consultation with the mother, discharges the mother or newborn earlier.

Also, under federal law, plans and issuers may not set the level of benefits or out-of-pocket costs so that any later portion of the 48 hour (or 96 hour) stay is treated in a manner less favorable to the mother or newborn than any earlier portion of the stay.

In addition, a plan or issuer may not, under federal law, require that a Physician or other health care provider obtain authorization for prescribing a length of stay of up to 48 hours (or 96 hours). However, to use certain providers or facilities, or to reduce your out-of-pocket costs, you may be required to obtain pre-certification. For information on pre-certification, please call us at the customer service telephone number listed on your ID card.
